Coherence vs. Cohesion

Coherence:

- very general principle of interpretation of language in context
- fewer formal linguistic features

  e.g vocabulary choice
- relationships deal with text as a whole
- based on primarily semantic relationships

  ↳ errors much more obvious

Cohesion:

- formal linguistic features

  e.g repetition,reference
- semantic relationships between sentences and within sentences
- determined by lexically and grammatically overt intersentential relationships

↳ more recognizable

Cohesion in English M.A.K. Halliday,Ruqaiya Hasan,2014-01-14 Cohesion in English is concerned with a relatively neglected part of the linguistic system its resources for text construction the range of meanings that are speciffically associated with relating what is being spoken or written to its semantic environment A principal component of these resources is cohesion This book studies the cohesion that arises from semantic relations between sentences Reference from one to the other repetition of word meanings the conjunctive force of but so then and the like are considered Further it describes a method for analysing and coding sentences which is applied to specimen texts **Collaborating Towards Coherence** Sanna-Kaisa Tanskanen,2006-01-01 This book approaches cohesion and coherence from a perspective of interaction and collaboration After a detailed account of various models of cohesion and coherence the book suggests that it is fruitful to regard cohesion as contributing to coherence as a strategy used by communicators to help their fellow communicators create coherence from a text Throughout the book the context sensitive and discourse specific nature of cohesion is stressed cohesive relations are created and interpreted in particular texts in particular contexts By investigating the use of cohesion in four different types of discourse the study shows that cohesion is not uniform across discourse types The analysis reveals that written dialogue computer mediated discussions and spoken monologue prepared speech make use of similar cohesive strategies as spoken dialogue conversations in these contexts the communicators interaction with their fellow communicators leads to a similar outcome The book suggests that this is an indication of the communicators attempt to collaborate towards successful communication **Cohesion in English** Michael Alexander Kirkwood Halliday,1976

languages While there is an overall focus on language contrasts it also investigates variation between different registers language internally and between written and spoken mode in particular For each of the five major types of cohesion co reference substitution ellipsis conjunctive relations and lexical cohesion overviews are given of contrasts in the system and of contrastive frequencies in texts Results and methods presented in this book are thus relevant for language teaching translation language technology and corpus based work on English and German generally *English Teaching Forum* ,2000 Universal Dictionary of the English Language Robert Hunter,Charles Morris,1897 **Universal Dictionary of the English Language** ,1898 **Forum** ,2002 *A New English Dictionary on Historical Principles: part 1.
