Intermediate Algebra Alan Tussy, R. Gustafson, 2004-12-08 Tussy and Gustafson's fundamental goal is to have students read, write, and talk about mathematics through building a conceptual foundation in the language of mathematics. Their text blends instructional approaches that include vocabulary practice and well-defined pedagogy along with an emphasis on reasoning, modeling, communication, and technology skills. With an emphasis on the language of algebra, they foster students' ability to translate English into mathematical expressions and equations. Tussy and Gustafson make learning easy for students with their five-step problem-solving approach: analyze the problem, form an equation, solve the equation, state the result, and check the solution. In addition, the text's widely acclaimed study sets at the end of every section are tailored to improve students' ability to read, write, and communicate mathematical ideas.
