hunted inspired by a true story The Statement was made into an award winning film starring Michael Caine Tilda Swinton and Alan Bates The Washington Post Brian Moore and the Meaning of the Past Patrick Hicks,2007 This book offers the first critical analysis of Brian Moore to examine the historical frameworks and various time periods that underpin each of his novels European North American Caribbean and North African alike showing him to have been a writer who was heavily invested in the representation and the meaning of the past This work should appeal to scholars interested in literary studies especially modern Irish literature concentrated upon his use of faith and realism although such examinations have illuminated his novels in intriguing and useful ways much has been neglected by viewing his work solely from these perspectives The sheer variety of Moore s work discourages a single viewpoint because his oeuvre refuses classification be that through narrative mode his use of religion or his varied use of setting The approach of this book which is the first of its kind examines how history influences Moore s texts as well as how it codifies his individual characters By the end of his career Brian Moore was rewriting history in order to create new narratives that explored colonialism identity religion and the intersection between differing interpretations of the past new readings This critical analysis examines Brian Moore as a writer who was heavily invested in the representation and the meaning of the past
