Bridge From Nowhere:

The Bridge to Nowhere Megan McDonald, 1993 Seventh grader Hallie is adjusting to friendship with an exciting older boy when her father a bridge builder temporarily out of work becomes an angry stranger in his own house

Of Bridges Thomas Harrison, 2023-06-05 Offers a philosophical history of bridges both literal bridges and their symbolic counterparts and the acts of cultural connection they embody Always wrote Philip Larkin it is by bridges that we live Bridges represent our aspirations to connect to soar across divides And it is the unfinished business of these aspirations that makes bridges such stirring sights especially when they are marvels of ingenuity A rich compendium of myths superstitions and literary and ideological figurations Of Bridges organizes a poetic and philosophical history of bridges into nine thematic clusters Leaping in lucid prose between distant times and places Thomas Harrison questions why bridges are built and where they lead He probes links forged by religion between life's transience and eternity as well as the consolidating ties of music illustrated by the case of the blues He investigates bridges in poetry as flash points in war and the megabridges of our globalized world He illuminates real and symbolic crossings facing migrants each day and the affective connections that make persons and societies cohere In readings of literature film philosophy and art Harrison engages in a profound reflection on how bridges form and transform cultural communities Of Bridges is a mesmerizing vertiginous tale of bridges both visible and invisible both lived and imagined
