

# Different Stages in Developmental Psychology

## 1- Infant

An infant or newborn is the first stage in developmental psychology. Now you might be thinking about what growth or change you will see at this stage. This is the stage where the child learns how to interact with and respond to others.

## 2- Toddler

A toddler is the age group between one and three years old. It is an important stage in the development of children. In this stage, children try to learn more about the world and how to master skills.

## 3- Preschoolers

This stage refers to the rapid growth and change where preschoolers come out of their shells and explore more about the outer world. This can be a crucial stage where children need proper care from their parents.

## 4- School-going children

School-going children between the ages of 6 and 12 develop a sense of self. At this stage, the children learn to make decisions about themselves. This is the beginning stage, where children try to learn from the things they see.

## 5- Adolescent

Adolescent age can be divided into three steps. Here, the individual grows up personally and learns to be independent. This step can provide major development, both mentally and physically. You will learn to deal with responsibilities and face major aging problems.

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
