Changing Face Call Japanese Pe:

Money Rules Henry Laurence, 2001 Henry Laurence traces financial market reform in Britain and Japan over the last two decades charting the movement of the Anglo Saxon and Japanese styles of capitalism toward a new hybrid form of economic organization He explains what these two stories reveal about changes in the nature of business government relations in an age of convergence The package of reforms known in Britain as the Big Bang and in Japan as Biggu Bangu decontrolled prices liberalized the number and nature of financial instruments that could be traded opened both countries markets to foreigners and introduced a much greater degree of competition than would have been believed possible twenty years earlier At the same time Britain and Japan have undertaken stringent measures to improve the transparency and fairness of their markets Why did two countries with traditionally very different regulatory styles adopt such strikingly similar reforms and why did these reforms result in a mixture of deregulation in some areas and tighter control in others In explaining these apparent contradictions Laurence invokes the powerful domestic political impact of international capital mobility Money Rules challenges the view that bureaucracy is the most powerful actor in the policymaking process Using extensive interviews with more than one hundred policymakers and financial professionals in both countries the author rebuts conventional wisdom He argues that the events in Britain and Japan demonstrate striking crossnational convergence of political and economic institutions
