

The Developmental Course of Marital Dysfunction

How do marriages become unhappy? How do marriages change? What theories and methods can best illuminate our understanding of marital development? As the first comprehensive volume to explore how marriages develop and deteriorate, *The Developmental Course of Marital Dysfunction* brings together leading scholars to present recent research on the longitudinal course of marriage. The chapters share a common focus on the early phases of marriage but address a diverse array of topics, including marital conflict, personality, social support, the transition to parenthood, violence, ethnicity, stress, alcohol use, commitment, and sexuality. Implications of this research for alleviating marital distress are also noted. The book concludes with six provocative analyses by prominent scholars in the areas of sociology, clinical psychology, social psychology, and developmental psychology.

By combining current theories, methods, and data, *The Developmental Course of Marital Dysfunction* serves as a valuable introduction to the longitudinal study of marriage.

Dr. Thomas Bradbury is Associate Professor of Psychology at the University of California, Los Angeles. He has earned numerous honors for his research, including the David Shakow Early Career Award from the Clinical Psychology Division of the American Psychological Association, the Reuben Hill Award from the National Council on Family Relations, and the Distinguished Scientific Award for Early Career Contribution to Psychology from the American Psychological Association.

Marriage A Search For Healing Jerry M. Lewis, 2013-06-17 This

work reveals those key elements that make for greater bonding with couples in therapy The author believes that improvement in the couples he treats almost always involves greater closeness and the development of greater capacity for intimacy Change can come about in different ways for different couples For some insight appears to play an important role Learning about one's central problematic relationship of childhood and its re-enactment with one's partner in adult life frequently involves also learning about the ways one subtly recreates this dysfunctional relationship structure For others improvement appears to be closely related to experiencing new ways of dealing with conflict This avenue of improvement relies in part on the understanding but even more on learning the approaches to conflict resolution It is as if these couples need to hear over and over again the recordings that document their insensitivities and consequent failure They must offer Each Other The Experiences That Are Emotionally Supportive And Crucial for emotional and physical health and also give life its meaning Finally the treatment approach outline also has significant effects on the therapists Indeed it may be difficult to know who learns most Involvement as a couples therapist may have all sorts of impact on the therapists and it will come as surprise that it is in the area of the therapist's capacity for intimacy that the greatest effect can be experienced

Marital Conflict Resolution Tactics and Preschoolers' Social Competence Krista Surowiec, 2002 *Handbook of Family Development and Intervention* William C. Nichols, 2000-02-25 Like all complex living systems a family during its life course proceeds through predictable stages of development Yet every family is different its uniqueness defined and continually redefined by an open-ended array of structural biological and sociocultural variables And as with all living things a family's continued well-being depends upon its ability to adapt to changes arising from both within the family system and without First postulated in the 1940s these basic ideas constitute the conceptual core of modern family development theory From them has blossomed an impressive body of knowledge about family health and illness without which much of the progress occurring in family therapy over the past half century would not have been possible This book does much to promote continued progress in the practical application of family development theory by affording family therapists an unparalleled opportunity to acquaint themselves with the most important trends in family development theory to emerge over the past decade In it you will find contributions from leading theorists researchers and clinicians arranged so as to provide a systematic treatment of the latest thinking on family development seen from both the systemic viewpoint and that of individual members of the system Comprehensive in scope this book explores the patterns processes and dynamics inherent in traditional families as well as in important structural variants such as single parent and gay and lesbian families and families with special needs and problems including divorce physical abuse and disabilities Since progress in the social sciences is as much about formulating viable new ways of seeing as it is about determining quantifiable facts the editors offer equal time to an array of influential and sometimes radically conflicting schools of thought including sociobiology social psychology constructionism multiculturalism postmodernism and feminism Mainstream family therapists will find much in

this handbook that they will consider controversial In some cases readers may even be outraged by the views expressed Yet thanks to the high caliber of scholarship intellect and professionalism evidenced throughout none of the ideas advanced in Handbook of Family Development and Intervention can be easily dismissed and all have something of value to offer the thoughtful dedicated family therapist Handbook of Family Development and Intervention is a valuable professional resource for all couples and family therapists It is also must reading for graduate students in family psychology family therapy social work and counseling In this magnificent volume the editors make a major contribution that integrates individual and family development concepts and therapeutic applications by bringing together scholarly yet fresh contributions The inclusion of various family forms and of families with special needs makes this volume especially relevant to the treatment of contemporary families as we enter the new millennium This superb Handbook should be mandatory reading and an excellent reference for teachers researchers and therapists at all levels of development Celia J Falicov PhD President 1999 2001 American Family Therapy Academy [An Evaluation of Three Models of Change in Romantic Relationships](#) Dannelle Yolanda Larsen-Rife,2006 **Communication and Cognition in Marriage** Keith Philip Sanford,2000 **Evidence-based Practices for Social Workers** Thomas O'Hare,2005 **Marital Intimacy and Family Subsystems** Alysia Y.
