

How can we support reframing our kids' behavior as communication?

Presume competence

Talk to your child directly, not around them or about them, and encourage other people to do the same.

Identify strengths

Talk to your child about what they are doing well, and build their strengths and preferences into their daily routines.

Give choice and control

Help your child develop skills to navigate the world with as much independence as possible.

Look for environmental or sensory barriers

Understand that your child's behavior may express their discomfort or desire to escape a situation.
