*The Animals Next Door* Harry Gersh, 1971      *Humans, Animals, and U.S. Society in the Long Nineteenth Century: A Documentary History* Dominik Ohrem, 2025-11-18 Volume IV comprises two sections dealing respectively with the development of pet culture and its evolution as a cultural institution over the course of the long nineteenth century and with the variegated presence of domesticated and feralised animals in U S cities Closely tied to the antebellum rise of the American middle class family and the sentimentalisation of certain human animal relationships by the turn of the twentieth century American petkeeping had become the target of an expansive industry that offered everything from gourmet pet foods and fashionable accessories to healthcare and boarding services This proliferation of companion animals also had a significant impact on urban life Besides walking sitting or lying on sidewalks and being sold in city stores and on street corners in cases of abandonment the animals swelled an ever increasing population of canine and feline strays Together with horses pigs cows chicken and urban wildlife these animals fundamentally shaped the routines rhythms and general experience of nineteenth century urban life for human city dwellers      Animals' Friend ,1897      *Animals* ,1901      *Animals Looking at You* Paul Eipper, 1929      *The Animals' Friend* ,1898      Museums in Motion Edward P. Alexander, Mary Alexander, 2008 In 1979 Edward P Alexander s *Museums in Motion* was hailed as a much needed addition to the museum literature In combining the history of museums since the eighteenth century with a detailed examination of the function of museums and museum workers in modern society it served as an essential resource for those seeking to enter to the museum profession and for established professionals looking for an expanded understanding of their own discipline Now Mary Alexander has produced a newly revised edition of the classic text bringing it the twenty first century with coverage of emerging trends resources and challenges New material also includes a discussion of the children s museum as a distinct type of institution and an exploration of the role computers play in both outreach and traditional in person visits      Animal Heroes of the Great War Ernest Harold Baynes, 1925 During the First World War there were nearly seventy million combatants who served in the armies of numerous countries and empires but there was another army involved one that is often overlooked in the history of war The army of animals that supported the armies of men From regimental mascots to beasts of burden animals played a vital part in the war machine of all involved and often beyond anything we might imagine There was man s best friend brave loyal dogs who served as patrolmen messengers sentries even combatants and detectives Communication has increased importance in modern warfare yet at times a homing pigeon s instinct of orientation was the sole hope available to soldiers in the field And despite the lowering esteem in which conventional cavalry was held horses were still able to go where the most modern of vehicles could not Focusing on the Allied Powers Baynes tells of the work done by animals in helping to win the war recording the services and sacrifices borne by these noble animals and more including the advent of chemical warfare and what it meant      **Life in Christ: a study of the Scripture doctrine on the**

**Life in Christ** Edward White,1878      **Animal Sacrifice and Religious Freedom** David M. O'Brien,2004 The Santeria religion of Cuba the Way of the Saints mixes West African Yoruba culture with Catholicism Similar to Haitian voodoo Santeria has long practiced animal sacrifice in certain rites But when Cuban immigrants brought those rituals to Florida local authorities were suddenly confronted with a controversial situation that pitted the regulation of public health and morality against religious freedom After Ernesto Pichardo established a Santeria church in Hialeah in the 1980s the city of Hialeah responded by passing ordinances banning ritual animal sacrifice Although on the surface those ordinances seemed general in intent they were clearly aimed at Pichardo s church When Pichardo subsequently sued the city a federal court ruled in the latter s favor in effect privileging the regulation of public health and morality over the church s free exercise of its religion The U S Supreme Court heard Pichardo s appeal in 1993 and unanimously decided that the city had overstepped its bounds in targeting this particular religious group however the court was sharply divided regarding the basis of its decision Three concurring opinions registered distinctly different views of the First Amendment the limits of government regulation and the religious freedom of minorities In the end the nine justices collectively concluded that freedom of religious belief was absolute while the freedom to practice the tenets of any faith were subject to non discriminatory local regulations David O Brien one of America s foremost scholars of the Court now illuminates this controversy and its significance for law government and religion in America His lively account takes us behind the scenes at every stage of the litigation to reveal a riveting case with more twists and turns than a classic whodunit Ranging with equal ease from primitive magic to municipal politics and to the most arcane points of constitutional law O Brien weaves a compelling and instructive tale with a fascinating array of politicians lawyers jurists civil libertarians and animal rights advocates Offering sharp insights into the key issues and personalities he highlights cultural clashes large and small while maintaining a balance for both the needs of government and the religious rights of individuals The Santeria case reaffirmed that our laws must be generally applicable and neutral and may not discriminate against particular religions Tracing the path to that conclusion **Animal Sacrifice and Religious Freedom** provides a provocative and learned account of one of the most unusual and contentious religious freedom cases in American history      *Life in Christ: a Study of the Scripture Doctrine on the Nature of Man, the Object of the Divine Incarnation and the Conditions of Human Immortality* Edward White (Minister of St. Paul's Chapel, Kentish Town.),1875
