Animation Thomas W. Hoffer, 1981-12-23 Product information not available *Producing Animation* Catherine Winder, Zahra Dowlatabadi, 2012-11-12 You have a useful library of books covering the tools techniques and aesthetics of animation but you've been asked to put your production and creative skills to the test to produce a theatrical feature film or to deliver 52 episodes of a television series with only 18 months in the schedule Producing Animation is your answer Written by Catherine Winder and Zahra Dowlatabadi and edited by Tracey Miller Zarneke Producing Animation is a comprehensive guide to the production industry Already a relied upon resource by professionals and students alike this book covers the process from script to screen while defining the role of the producer at each phase The second edition features new content such as sidebars on key topics from industry experts discussions on CG 2D and stereoscopic production processes and an overview on marketing and distributing your project The companion website provides access to sample tables templates and workflow outlines for CG and 2D animation production

On Animation Ron Diamond, 2019-09-24 Be a fly on the wall as industry leaders Bill Kroyer and Tom Sito take us through insightful face to face interviews revealing in these two volumes the journeys of 23 world class directors as they candidly share their experiences and personal views on the process of making feature animated films The interviews were produced and edited by Ron Diamond Your job is not to be the one with the answers You should be the one that gets the answers That's your job You need to make friends and get to know your crew These folks are your talent your bag of tricks And that's where you're going to find answers to the big problems Andrew Stanton It's hard Yet the pain you go through to get what you need for your film enriches you and it enriches the film Brenda Chapman Frank and Ollie always used to say that great character animation contains movement that is generated by the character's thought process It can't be plain movement John Lasseter The beauty of clay is that it doesn't have to be too polished or too smooth and sophisticated You don't want it to be mechanical and lifeless Nick Park The good thing about animation is that tape is very cheap Let the actor try things This is where animation gets to play with spontaneity You want to capture that line as it has never been said before And most likely if you asked the actor to do it again he or she just can't repeat that exact performance But you got it Ron Clements
