**The Armageddon Network** Michael P. Saba, 1984      **Disciples of Destruction** Charles W. Sutherland, What's going on in the world Every day we hear more horror stories about the wars in the Middle East Americans are afraid to travel world wide because of their justified fears of terrorism And here at home we watch with amazement as the fundamentalists battle over control of a TV empire riddled with sex and drugs with a scenario that makes prime time television look tame As money sex and power once again take their toll *Disciples of Destruction* examines religion itself and the role it has played since time as we know it began Sutherland uncovers and analyzes the real ramifications of organized religion and its devastating effects on Western civilization *Disciples of Destruction* is packed with little known vignettes that are sure to astonish amuse and sometimes even outrage the reader Few will fail to be drawn in by the account of the Corpse Synod in which a Pope's body was exhumed put on trial for high crimes and subsequently dragged through the streets of Rome or shocked by the plausible contention that Albino Luciani elected Pope John Paul I in 1979 but destined to reign for only 33 days did not die a natural death but was in fact assassinated Sutherland convincingly concludes that organized religion even today maintains the proclivities of its barbaric origins as Israeli expansionism the Vatican's obsession with its financial empire the atrocities of Khomeini's Islamic Republic and Marxist militarism and repression amply demonstrate These proclivities updated to our century indicate that while the long battle to liberate the mind from the fear of tyranny continues the slow process of slaying the dragons of mythology is not keeping step with the pace of nuclear weapons development and deployment which accelerates in the context of an equally explosive growth of religious fundamentalism Unchecked this makes armageddon the easiest prophecy to fulfill      *9/11-Enemies Foreign and Domestic* Edward Hendrie, 2011 Hendrie proves beyond a reasonable doubt that the U S government's conspiracy theory of the attacks on September 11 2001 is a preposterous cover story The evidence proves that powerful Zionists ordered the 9 11 attacks which were perpetrated by Israel's Mossad aided and abetted by treacherous high officials in the U S government      *Patriots and Profiteers, Second edition* R.T. Naylor, 2009-07-15 Almost everyone assumes that by enforcing trade sanctions and arms embargoes modern democracies make tin pot dictators and rogue states mend their ways that the application of economic pressure is easily the most effective way to curb aggression and encourage respect for human rights R T Naylor demonstrates that economic warfare fails almost everywhere it is attempted and that even when it succeeds it has consequences that are not only unintended but also frequently the precise opposite of their advertised result For instance embargoes drove Cuba into the awkward embrace of the Soviet Union Everywhere that economic pressures have been used to either replace or augment military actions the result has been confusion leading to criminality From east to west from before WWI to the recent confrontations with Pakistan Bosnia and Iraq the legacy of economic warfare has been money laundering gun running drug smuggling and evasion of the rule of law Naylor's approach is at once epic and anecdotal His survey is populated by a bizarre underworld of

Annotation  
Most new or alternative religions are gravely misunderstood by members of the religious mainstream. Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large. Despite their efforts at educating the general public, the various anti and counter cult activists have in fact promoted much more misunderstanding than accurate understanding of the religious lives of some of their fellow citizens. Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream. This set rectifies the situation by presenting accurate, comprehensive, authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context. Determining what actually constitutes a new or alternative religion is a subject of constant debate. Questions arise as to a new faith's legitimacy, beliefs, methods of conversion and other facets of a religious movement's viability and place in a given culture. How a religion gains recognition by the mainstream, which often labels such new movements as cults, is fraught with difficulty, tension and fear. Here experts delineate the boundaries and examine the various groups, beliefs, movements and other issues related to new faiths and alternative beliefs. Readers will come away with a fuller understanding of the religious landscape in America today.

Volume 1: *History and Controversies* discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them. This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved.

Volume 2: *Jewish and Christian Traditions* explores the various new religions that have grown out of these two Abrahamic faiths. Groups such as the Shakers, the People's Temple, the Branch Davidians, Jehovah's Witnesses and others are examined.

Volume 3: *Metaphysical, New Age and Neopagan Movements* looks at Shamanism, Spiritualism, Wicca and Paganism among other movements as they have developed and grown in the U.S. These faiths have found new and devoted followers yet are often misunderstood.

Volume 4: *Asian Traditions* focuses on those new and alternative religions that have been inspired by Asian religious traditions. From Baha'i to Soka Gakkai, from Adidam to the Vedanta Society, contributors look at a full range of groups practicing and worshiping in the U.S. today.

Volume 5: *African Diaspora Traditions and Other American Innovations* examines the various traditions linked to the African diaspora such as Rastafarianism, Santeria and the Nation of Islam, alongside traditions that are truly American incarnations like Scientology, UFO religions and Heaven's Gate. Some of the new and alternative religions covered in these pages include Shamanism, Wicca, Black Israelites, Santeria, Scientology, Elan Vital, Hare Krishna, Soka Gakkai and many more.
