Color - Class - Identity John Arthur, Amy Shapiro, 2018-02-12 Three recent and dramatic national events have shattered the complacency of many people about progress however fitful in race relations in America The Clarence Thomas Anita Hill hearings the O J Simpson trial and the Million Man March of Louis Farrakhan have forced reconsideration of their assumptions about race and racial relations The Thomas Hill hearings exposed the complexity and volatility of perceptions about race and gender The sight of jubilant blacks and despondent whites reacting to the O J Simpson verdict shook our confidence in shared assumptions about equal protection under the law The image of hundreds of thousands of black men gathering in Washington in defense of their racial and cultural identity angered millions of whites and exposed divisions within the black community These events were unfolding at a time when there seemed to be considerable progress in fighting racial discrimination On the legal side discrimination has been eliminated in more and more arenas in theory if not always in practice Economically more and more blacks have moved into the middle class albeit while larger numbers have slipped further back into poverty Intellectually figures like Cornel West Henry Louis Gates Jr and Patricia J Williams are playing a central role as public intellectuals In the face of these disparate trends it is clear that Americans need to rethink their assumptions about race racial relations and inter racial communication Color Class Identity is the ideal tool to facilitate this process It provides a richly textured selection of readings from Du Bois Cornel West Derrick Bell and others as well as a range of responses to the particular controversies that are now dividing us Color Class Identity furthers these debates showing that the racial question is far more complex than it used to be it is no longer a simple matter of black versus white and racial mistrust A landmark anthology that will help advance understanding of the present unease not just between black and white but within each community this book will be useful in a broad range of courses on contemporary U S society
