Re-creating Human Nature Charles Williams Hayward,1924 The National Nurseryman ,1922 A Mother's Job Elizabeth Rose,1999-01-14 Americans today live with conflicting ideas about day care We criticize mothers who choose not to stay at home but we pressure women on welfare to leave their children behind We recognize the benefits of early childhood education but do not provide it as a public right until children enter kindergarten Our children are priceless but we pay minimum wages to the overwhelmingly female workforce which cares for them We are not really sure if day care is detrimental or beneficial for children or if mothers should really be in the workforce To better understand how we have arrived at these present day dilemmas Elizabeth Rose argues we need to explore day care s past A Mother s Job is the first book to offer such an exploration In this case study of Philadelphia Rose examines the different meanings of day care for families and providers from the late nineteenth century through the postwar prosperity of the 1950s Drawing on richly detailed records created by social workers she explores changing attitudes about motherhood charity and children s needs How did day care change from a charity for poor single mothers at the turn of the century into a recognized need of ordinary families by 1960 This book traces that transformation telling the story of day care from the changing perspectives of the families who used it and the philanthropists and social workers who administered it We see day care

through the eyes of the immigrants whites and blacks who relied upon day care service as well as through those of the professionals who provided it This volume will appeal to anyone interested in understanding the roots of our current day care crisis as well as the broader issues of education welfare and women s work all issues in which the key questions of day care are enmeshed Students of social history women s history welfare policy childcare and education will also encounter much valuable information in this well written book American Nurseryman ,1926 Annual Report New York State Library,1903 Reports for 1863 90 include accession lists for the year Beginning with 1893 the appendixes consist of the various bulletins issued by the Library Additions Bibliography History Legislation Library school Public libraries "Bad" Mothers Molly Ladd-Taylor,Lauri Umansky,1998 With a distinct minority of American families living the two parent one worker lifestyle touted as the norm the authors examine the question Do most mothers now qualify as bad mothers in one way or another Cover New Pathways of Rural Education in China Jialing Han,2024-03-31 This book summarizes and explores the development model and path of rural education in China while also describing how small scale schools can replicate this low cost local experience As the nerve endings of Chinese education system rural small scale schools have unique important values in guaranteeing equity in education and serving the compulsory education in rural areas This book presents ten vivid stories of the transforming path of rural small scale schools in China It shows how the rural small scale schools acted according to circumstances to enhance education quality how they broke through the difficult situation and improved and how they achieved the status of small and beautiful and small and good It explores a new path for rural education reform and aims to provide some inspirations on rural and urban education development *Proceedings* Pennsylvania State University. Schoolmen's Week,1929 **Report** New York State Library,1903 *Yearbook of Legislation* Robert Harvey Whitten,1905 *Women's Movements in Twentieth-Century Taiwan* Doris Chang,2010-10-01 This book is the first in English to consider women s movements and feminist discourses in twentieth century Taiwan Doris T Chang examines the way in which Taiwanese women in the twentieth century selectively appropriated Western feminist theories to meet their needs in a modernizing Confucian culture She illustrates the rise and fall of women s movements against the historical backdrop of the island s contested national identities first vis vis imperial Japan 1895 1945 and later with postwar China 1945 2000 In particular during periods of soft authoritarianism in the Japanese colonial era and late twentieth century autonomous women s movements emerged and operated within the political perimeters set by the authoritarian regimes Women strove to replace the Good Wife Wise Mother ideal with an individualist feminism that meshed social political and economic gender equity with the prevailing Confucian family ideology However during periods of hard authoritarianism from the 1930s to the 1960s the autonomous movements collapsed The particular brand of Taiwanese feminism developed from numerous outside influences including interactions among an East Asian sociopolitical milieu various strands of Western feminism and even Marxist Leninist women s liberation programs in Soviet Russia Chinese communism appears not to have

played a significant role due to the Chinese Nationalists restriction of communication with the mainland during their rule on post World War II Taiwan. Notably this study compares the perspectives of Madame Chiang Kai shek whose husband led as the president of the Republic of China on Taiwan from 1949 to 1975 and Hsiu lien Annette Lu Taiwan s vice president from 2000 to 2008. Delving into period sources such as the highly influential feminist monthly magazine *Awakening* as well as interviews with feminist leaders Chang provides a comprehensive historical and cross cultural analysis of the struggle for gender equality in Taiwan.
