## Creating Health:

Co-creating Health: Evaluation of the first phase , *Christology and Global Ethics* Martins, Alexandre A.,2023 This book offers a Christological account developed among the poor in Latin America and their experience of a God incarnated in history It places two realities together the academia where faith is object of studies and the grassroots community where faith is embodied The author introduces the reader to a contemporary Christological discussion from a Latin American liberating perspective with three essential characteristics first it is a Christology created from the reality of the poor and marginalized and at the same time oriented toward this reality as a pastoral resource Second its method goes beyond the polarization Christology from below and Christology from above Third it is a Christological essay that has a biblical text at its center Lk 4 16 30 as a starting point from where important theological disciplines are stressed such as systematic theology moral theology and liturgy In this way this book presents to the readers how different areas of theology are related and form a unity around the mystery of Christ and the faith experience of a Christian community Therefore it is an excellent book to initiate people in theological studies and method that can be used in theological classes in colleges schools and Catholic communities *Diet for a New Life* Mariana Bozesan,2004-10 Mariana Bozesan s ebook is published at <http://www.sageera.com> as part of the Diet for a New Life weight loss program Prices start at 29 95 for the ebook and a one month free trial of the program The e book is endorsed by Dr Deepak Chopra Dr Camran Nezhat Dr Riane Eisler Dr Fred Gallo and many more
