**The Scientific Case Against Scientific Creationism** Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles

**The Evolution of a Creationist** Jobe Martin, Jobe Ralph Martin, 2004 In his book *The Evolution of a Creationist* Dr Jobe Martin chronicles his personal journey from traditional scientist to creationist He was a traditional evolutionist but it was his medical and scientific training that would go through an evolution when he began to study animals that challenged the scientific assumptions of his education Dr Martin has been exploring the evolution vs creation debate for the past 20 years His findings have been fascinating students around the world as he lectures on these remarkable animal designs that cannot be explained by traditional evolution
