The Culture of Possibility Arlene Goldbard, 2013 Van Jones said it well If we're going to end this fiscal madness and start rebuilding America we're going to have to get creative We need a tsunami of music film poetry and art The Culture of Possibility shows us how creativity can take our story back from Corporation Nation tilting the culture towards justice equity and innovation I urge you to read this book We are in the midst of seismic cultural change In the old paradigm priorities are shaped by a mechanistic worldview that privileges whatever can be numbered measured and weighed human beings are pressured to adapt to the terms set by their own creations How we feel how we connect how we spend our time how we make our way and come to know each other these are all part of the scenery In the new paradigm things are given their true value People care passionately about how they and the things they value are depicted They revive themselves after a long workday with music or dance by making something beautiful for

themselves or their loved ones by expressing their deepest feelings in poetry or watching a film that never fails to comfort In the new paradigm it is understood that culture prefigures economics and politics it molds markets and it expresses and embodies the creativity and resilience that are the human species greatest strengths The bridge between paradigms is being built by artists and others who have learned to deploy artists cognitive imaginative empathic and narrative skills The bridge is made of the stories that the old paradigm can't hear the lives that it doesn't count the imagined future it can't encompass Using first person stories drawing on both history and headlines embracing new knowledge from education medicine cognitive science spirituality politics and other realms The Culture of Possibility shows why how and where we can build a bridge to a sustainable future
