Women's Emancipation Movements in the Nineteenth Century Sylvia Paletschek, Bianka Pietrow-Ennker, 2004 Annotation The nineteenth century a time of far reaching cultural political and socio economic transformation in Europe brought about fundamental changes in the role of women Women achieved this by fighting for their rights in the legal economic and political spheres In the various parts of Europe this process went forward at different paces and followed different patterns Most historical research up to now has ignored this diversity preferring to focus on women s emancipation movements in major western European countries such as Britain and France The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe Fourteen historians all of them specialists in women s history examine the origins and

development of women s emancipation movements in their respective areas of expertise By exploring the cultural and political diversity of nineteenth century Europe and at the same time pointing out connections to questions explored by conventional scholarship the essays shed new light on common developments and problems Monatshefte ,2005
