Digital Marketing IntroBooks Team, Digital marketing is a comprehensive term that covers all marketing channels and strategies that one can not only use to advertise digital products or services but also on electronic equipment such as televisions smartphones and electronic billboards The main difference between digital marketing and conventional advertising is that digital marketing initiatives are performed primarily across digital channels allowing marketers more leverage resources and information to measure a campaign s efficacy Another noted distinction between the two is that online marketing channels are based exclusively on the Internet whereas offline marketing platforms are accessible to digital tools not inherently encrypted to the IoT Digital marketing has a plethora of channels and these can be fragmented into channels of online and offline brand management Also one needs to take a look at the digital marketing strategy which is a workable plan on how to accomplish the business objectives by exploiting the various digital marketing channels to good effect

Sustainable Performance in the Digital Age Carine Vinardi,2025-11-20 This book explains how to combine Lean

including Hoshin Kanri with Digital solutions to maximize sustainable performance that complies with people's and planet's performance expectations and needs. Organisations have always strived to perform the best and be the most sustainable. In this respect, Lean systems and other proven recipes still make sense and are still far from having delivered their full potential in most companies. Meanwhile, digital solutions have become increasingly available in recent years. These are designed to maximise the full potential of data use and provide solutions to define or optimise products, services, and processes. Combining Operational and Digital Excellence aligned with social and environmental expectations is key for organisations that aim to maximise their efficiency and performance over the long term. In this book, the author, who faced this challenge and has a recognized expertise and experience on all topics, highlights how to assess and make it happen, the pitfalls to avoid, and the conditions of success. She uses her experience and includes the testimonials of other talented CEOs, senior executive leaders, experts, and the latest scientific references and case studies. Concrete solutions, tips, and advice are proposed throughout the book.

Proceedings of the XVII International symposium Symorg 2020 Dušan Starčević, Sanja Marinković, 2020-06-30

Ever since 1989, the Faculty of Organizational Sciences, University of Belgrade, has been the host of SymOrg, an event that promotes scientific disciplines of organizing and managing a business. Traditionally, the Symposium has been an opportunity for its participants to share and exchange both academic and practical knowledge and experience in a pleasant and creative atmosphere. This time, however, due to the challenging situation regarding the COVID-19 pandemic, we have decided that all the essential activities planned for the International Symposium SymOrg 2020 should be carried out online between the 7th and the 9th of September 2020. We are very pleased that the topic of SymOrg 2020, Business and Artificial Intelligence, attracted researchers from different institutions, both in Serbia and abroad. Why is artificial intelligence a disruptive technology? Simply because it significantly alters the way consumers, industries, or businesses operate. According to the European Commission document titled *Artificial Intelligence for Europe 2018*, AI is a key disruptive technology that has just begun to reshape the world. The Government of the Republic of Serbia has also recognized the importance of AI for the further development of its economy and society and has prepared an AI Development Strategy for the period between 2020 and 2025. The first step has already been made: the Science Fund of the Republic of Serbia, after a public call, has selected and financed twelve AI projects. This year, more than 200 scholars and practitioners authored and co-authored the 94 scientific and research papers that had been accepted for publication in the Proceedings. All the contributions to the Proceedings are classified into the following 11 sections: Information Systems and Technologies in the Era of Digital Transformation; Smart Business Models and Processes; Entrepreneurship, Innovation, and Sustainable Development; Smart Environment for Marketing and Communications; Digital Human Resource Management; Smart E-Business; Quality 4.0 and International Standards; Application of Artificial Intelligence in Project Management; Digital and Lean Operations Management; Transformation of Financial Services; Methods and Applications of Data Science in Business and Society. We are very grateful to our distinguished keynote speakers, Prof. Moshe

Vardi Rice University USA Prof Bla Zupan University of Ljubljana Slovenia Prof Vladan Deved i University of Belgrade Serbia Milica uri Jovi i PhD Director Science Fund of the Republic of Serbia and Harri Ketamo PhD Founder Chairman of HeadAI ltd Finland Also special thanks to Prof Dragan Vukmirovi University of Belgrade Serbia and Prof Zoran evarac University of Belgrade Serbia for organizing workshops in fields of Data Science and Machine Learning and to Prof Rade Mati Belgrade Business and Arts Academy of Applied Studies and Milan Dobrota PhD CEO at Agremo Serbia for their valuable contribution in presenting Serbian experiences in the field of AI The Faculty of Organizational Sciences would to express its gratitude to the Ministry of Education Science and Technological Development and all the individuals who have supported and contributed to the organization of the Symposium We are particularly grateful to the contributors and reviewers who made this issue possible But above all we are especially thankful to the authors and presenters for making the SymOrg 2020 a success
