A Collection of Creative Anthropologies Eva van Roekel, Fiona Murphy, 2024-06-28 A Collection of Creative Anthropologies brings together a series of creative work of anthropologists who share the art of writing that arises from ordinary engagement and reveals its potential for the reimagining of anthropological futures and alternative worlds This is a collection of creative anthropology anchored in experimentality and encouragement A book that defies imaginaries of academic convention through the cultivation of a mundus imaginalis requiring moments of pause of introspection and of discomfort This centring of creativity at the heart of anthropology subtly conveys how the complex ethical and moral issues around fieldwork and anthropological theorising can be reflected on through writing otherwise in creative spaces such as this book A Collection of Creative Anthropologies fits the current call for radical revisions of the academic canon in anthropology and the social sciences and humanities more broadly

Dintaman,1993 In this first major English language study of Adolf Schlatter 1852 1938 Stephen F Dintaman convincingly demonstrates that this enigmatic Swiss New Testament interpreter offers us a unique and compelling answer to the central methodological question of his era the question of faith and history A prolific writer and remarkably comprehensive theologian Schlatter set out to heal the methodological sickness that he thought had crippled modern biblical scholarship His penetrating criticisms of the rationalist philosophical assumptions behind a purely skeptical historical criticism and his insistence on a living relationship between the life story of the interpreter and the life act of Jesus as mediated through the language of the biblical text marked Schlatter as an unscientific pietist in the minds of many of his contemporaries Yet at the end of the 20th century we can look back through Dintaman s work and see that Schlatter anticipated many of the themes of post modernity and had developed an original narrative approach to theology almost a century before the concept came in vogue **Nature** Sir Norman Lockyer,1923
