Encyclopedic Psychic Dictionary June G Bletzer PhD, 2011-05-01 Standard dictionaries and grammar books do not offer adequate language when it comes to describing invisible mind impressions internal body sensations and altered states of consciousness Newly awakened interest in psychics mystics shamans mediums their philosophy of life and their experiences within invisible dimensions has extended everywhere Organizations seminars weekend workshops classes and therapies in parapsychology and humanistic psychology spring up overnight Medical doctors and researchers in holistic health are assembling a startling body of evidence that intimately connects parapsychological theories with both physical and mental well being One may now openly speak about one's new attitudes changes in beliefs successful alternative healings meditative and psychic experiences and one's personal quest of a more qualitative lifestyle without under the breath ridicule and harassment This is a global shift in consciousness occurring in all levels of awareness Legions of individuals and other living organisms are beginning to sense the surge of a consciousness shift within themselves from the ant and the tree to the layman and government official Some name this shift in consciousness the age of transformation Whatever one names it it is here Changes change changed and semantic confusion People are groping for words to express new dimensional concepts sensations and experiences with third

dimensional language Instructors authors psychics and laymen in this field are coining new words and giving standard words new meanings in trying to explain the variety of experiences of other levels of consciousness and new inner levels of awareness Mankind has not yet evolved a language or a communication system that can adequately explain these new experiences sensations and concepts This is quite normal in a pioneer field but these descriptive terms are multiplying faster than research and study can evolve The written media system is flooded with newly coined words The aim of this volume is to make the groping for words easier when describing noncustomary experiences and theories with the customary language Any situational shift requires a shift in language variety This book contains a concise grouping of the present day shift in language variety and a comparison of this new language variety to words and phrases used in the past in similar philosophies activities and inner dimensional experiences To accomplish this I have recorded words and phrases from 2000 B C the I Ching to interviews of new age workers such as seen on the Phil Donahue Show Terms used in the mystical and parapsychological field over the years are defined described annotated or theorized This literary reference volume is a twofold book in which a textbook interweaves with a dictionary The same wordage synchronizes a dictionary a textbook and a psychic skill development course This means no unnecessary reading of valueless words The material is concise and to the point Every word is important You could say this volume is a shift in a literary style of writing to accommodate the new global shift in consciousness It is a tool for an accelerated style of learning As a teacher in this field for over four decades Dr Bletzer found that students drawn to the study of parapsychology were people of all ages and all walks of life She observed this human potential movement and consciousness shift becoming alive among her students with an accelerated speed in the later years of her life From the sixteen hundred students she taught to develop psychically the amount of time to acquire good psychic skills lessened by half during the last few years She was finding that the public demand for information relating to parapsychology was coming faster than anyone could teach it She found a strong desire to understand the multitude of new terms and new meanings for standard words used to describe new and rediscovered states of awareness and experiences as well as a concrete need for a comprehensive study of the parapsychological field Human beings all over the world will continue to seek means to transform themselves under the new vibrations of the Aquarian Age and the common ground on terminology given in this book will make this easier With no standard textbooks in this field during her many years of teaching metaphysics and psychic development she researched and prepared all her class lectures experiments and course material With knowledge gleaned from this research she taught psychic development and received feedback from the students being instructed She also read and scanned hundreds of additional books written in the past and present Words and phrases were taken not only from these books but also from magazines pamphlets newspaper articles lectures seminars television and radio programs record jackets and even from herb tea boxes Therefore one will find colloquialisms as well as technical and philosophical terms The bibliography at the end of the volume describes many of these sources Because

astrology demonology psychology mythology and many religions have their own glossary these words are not reprinted in this volume unless the term frequently interfaces with parapsychology This book is intended to serve as a reference tool for the beginning student the researcher and the professional First consider this volume as an easy to use comprehensive annotated technical dictionary complete with cross references to ninety percent of the entries The cross references add to the meaning description annotation or sometimes simply presents another person s viewpoint to the reader Although the definitions emphasize simplicity and clarity I tried to retain and reflect the beauty and profoundness given by the mystic philosopher and parapsychologist The annotations are concise and to the point in order to get all the categories in one volume This gives a holistic view of the parapsychology field One may feel there are too many relating subjects but once one is open to this field he or she will be exposed to many of these other fields There are guidelines as to the format used in the dictionary wordage It is suggested that one turn to the categories of his or her interest to see what terms exist In spite of acceleration of popular growth in this field one can quickly acquaint her or himself with the many words which have recently come into usage Also consider this volume as a condensed comprehensive technical para psychology textbook complete with do it by yourself instructions Because the entries are categorized under their particular field and in alphabetical order one can very quickly find much information about the subject of their choice And for a full basic but in capsule form education in this field there are instructions outlining graduated steps for not only the individual just becoming interested but also the long time instructor Language varies in different cultures time periods and even in small groups of one cause It varies because the users of language change it to adapt to their needs Words are alive powerful and constantly growing As a dictionary researcher Dr Bletzer felt it her duty to record the words as they were used not to pass judgment and offer corrections She tried to keep the definition description or annotation as unvarnished and natural as possible so one can more easily understand the philosophy or a new dimension that may be completely foreign to him The overall aim is to make some kind of common ground melding psychic knowledge pot which will bring together time periods and cultures showing similarities and differences in psychic skills and philosophies Language today is being individually designed different meanings and different parts of speech are being given to standard words and old words are being revitalized The reason for this is because there is no common ground melding psychic knowledge pot Humankind needs a synthesization of communication in this discipline today more than ever before Hosts of individuals are finding an inner desire to increase their psychic skills in order to better understand themselves and to understand how and why the planet is bringing a consciousness shift Psychic skills and parapsychological information are tools to help understand this consciousness shift and these accelerated times They are also good tools for those who wish to add to the shift in the earth s consciousness The hope is that in some small way this volume will aid compatibility co operation and conformity in parapsychological affairs among psychics humanistic psychologists holistic health practitioners scientists researchers ministers meditators etc and lessen the

semantic confusion As you study from these references the hope is that you find it as comforting and educational in learning that man as a universal creature has been using psychic skills holistic health therapies etheric world intelligences etc in other time periods and in every culture of the world Confucius said Without knowing the force of words it is impossible to know men

The Seeker's Handbook John Lash,1990 The spiritual impulse is nothing new but the perplexing availability of so many belief systems from throughout the world and throughout history is unique to our time For today's spiritual seeker clear directions are essential The Seeker's Handbook is meant to be used as a tool much like a compass for guiding individuals along the paths of spiritual growth

Dreaming the Beatles Rob Sheffield,2017-04-25 An NPR Best Book of the Year Winner of the Virgil Thomson Award for Outstanding Music Criticism This is the best book about the Beatles ever written Mashable Rob Sheffield the Rolling Stone columnist and bestselling author of Love Is a Mix Tape offers an entertaining unconventional look at the most popular band in history the Beatles exploring what they mean today and why they still matter so intensely to a generation that has never known a world without them Dreaming the Beatles is not another biography of the Beatles or a song by song analysis of the best of John and Paul It isn't another exposé about how they broke up It isn't a history of their gigs or their gear It is a collection of essays telling the story of what this ubiquitous band means to a generation who grew up with the Beatles music on their parents' stereos and their faces on T-shirts What do the Beatles mean today Why are they more famous and beloved now than ever And why do they still matter so much to us nearly fifty years after they broke up As he did in his previous books Love is a Mix Tape Talking to Girls About Duran Duran and Turn Around Bright Eyes Sheffield focuses on the emotional connections we make to music This time he focuses on the biggest pop culture phenomenon of all time The Beatles In his singular voice he explores what the Beatles mean today to fans who have learned to love them on their own terms and not just for the sake of nostalgia Dreaming the Beatles tells the story of how four lads from Liverpool became the world's biggest pop group then broke up but then somehow just kept getting bigger At this point their music doesn't belong to the past it belongs to right now This book is a celebration of that music showing why the Beatles remain the world's favorite thing and how they invented the future we're all living in today

Deva tarot ,1999 *Parapsychology, New Age, and the Occult* ,1993 **New Age Journal** ,1998 **Magyar nemzeti bibliográfia** ,2000 The Word ,1916 Divine Archetypes Victor Hale,2025-02-09 Divine Archetypes The Power of Ancient Gods Before science divided the world into rigid categories there was a deeper wisdom an ancestral map guiding those who dared to listen This knowledge was never lost only silenced Now it resurfaces in Divine Archetypes a transformative exploration of mythology psychology and spirituality that reveals the living presence of ancient gods within the human psyche Victor Hale leads you on a journey through the divine forces that shape your mind emotions and personal

growth Ares awakens courage in the face of adversity Athena whispers wisdom in moments of uncertainty and Aphrodite dances through the currents of love and connection Each deity embodies an archetype a force that resides within you waiting to be understood and integrated Through powerful reflections guided meditations and practical rituals this book becomes more than a reading experience it is a key to unlocking your inner divine From the sacred breath of Deva to the visionary insight of Isis from the warrior s discipline of Shiva s yoga to the prophetic wisdom of Odin s runes each chapter offers tools to reclaim your ancestral strength Society teaches you to ignore these forces to confine your identity to logic productivity and labels But why then do so many feel lost Why do anxiety and emptiness persist even in those who seemingly have it all Because something essential has been severed the connection to the divine within This book is a portal one that invites you to step beyond mere existence and into a state of profound self awareness and transformation Those who accept this path will never be the same
