Developing Innovation In Online Learning An Action Research Framework:

Developing Innovation in Online Learning Maggie McPherson, Miguel Baptista Nunes, 2004-05-06 Action research has become a valued research and educational development technique an innovative approach through which a group of participants engage in self reflection to improve practice *Developing Innovation in Online Learning* introduces action research as a method of developing e learning modules and courses The book covers both the theory and practice of applying action research principles to develop online learning The material is grounded in the experiences of practitioners and features practical advice case studies models for implementation a design framework and e tutoring strategies The four building blocks of e learning covered are The organisational context The pedagogic model The educational setting The evaluation process This book will be an essential resource for education managers course developers and educational researchers

Developing Innovation in Online Learning Maggie McPherson, Miguel Baptista Nunes, 2004 This book introduces action research as a method of developing e learning modules and courses It covers both the theory and practice of applying action research principles to develop online learning

Handbook of Research on Student-Centered Strategies in Online Adult Learning Environments Fitzgerald, Carlton J., Laurian-Fitzgerald, Simona, Popa, Carmen, 2018-06-08 As traditional classroom settings are transitioning to online environments teachers now face the challenge of using this medium to promote effective learning strategies especially when teaching older age groups Because adult learners bring a different set of understandings and skills to education than younger students such as more job and life experiences the one size fits all approach to teaching does not work thus pushing educators to create a student centered approach for each learner The *Handbook of Research on Student Centered Strategies in Online Adult Learning Environments* is an important resource providing readers with multiple perspectives to approach issues often associated with adult learners in an online environment This publication highlights current research on topics including but not limited to online competency based education nontraditional adult learners virtual classrooms in public universities and teacher training for online education This book is a vital reference for online trainers adult educators university administrators researchers and other academic professionals looking for emerging information on utilizing online classrooms and environments in student centered adult education

The Evaluative Study of Action Research Eileen Piggot-Irvine, Lesley Ferkins, Wendy Rowe, Shankar Sankaran, 2021-02-15 *The Evaluative Study of Action Research* presents all eight published papers as part of the six year global Evaluative Study of Action Research ESAR in one volume The study sought to enhance the academic rigour of Action Research AR and provide greater evidence of its impact This research contained in this book shows in a cohesive way how the ESAR exemplifies original research incorporating new methodologies to create new knowledge An Evaluative AR framework and indicators were created for initial qualitative data collection with six initial case studies using interviews survey documentary analysis and Goal Attainment Scaling methods The initial study was followed by a large scale mixed

method survey with 174 projects from across the globe Almost all projects exhibited positive elements linked to AR precursors focus clarification stakeholder engagement funding processes phased planned yet flexible activity data collection and analysis ongoing collaboration and leadership and outcomes impacts change knowledge mobilisation and continuing action The results of the ESAR elaborated in this volume offer important indications for how to create the sort of respectful engagement that is required for collective strength in solution based innovative change This book will be a valuable resource for action researchers throughout the world postgraduate research students academics and libraries evaluators and anyone in communities who wishes to know how to create sustainable change **The Language of Digital Education** ,2024-12-16 This book presents concise definitions and illustrative contexts for many approaches ideas and paradigms related to digital education Unlike existing glossaries that often focus solely on technical terminology this resource uniquely integrates pedagogical technological and socio cultural perspectives It not only defines terms but also critically examines their implications for teaching and learning providing a more holistic understanding of digital education Contributors are Isabel Balteiro Miguel Angel Campos Pardillos Ka Long Roy Chan Salvatore Ciancitto Liubov Darzhinova Derya Duran Georgios Ellinas Stella Hadjistassou Pascal Hohaus Teppo Jakonen Marjut Johansson Merve K ymaz Ioannis Lefkos Ruslana Margova Claudia Mustroph Maarit Mutta Svitlana Nasakina Liisa Peura Alessandro Puglisi Violeta Stoji i Ralia Thoma Outi Veivo Johanathan Woodworth and Siyang Zhou **Oxford Textbook of Medical Education** Kieran Walsh,2016 Providing a comprehensive and evidence based reference guide for those who have a strong and scholarly interest in medical education the Oxford Textbook of Medical Education contains everything the medical educator needs to know in order to deliver the knowledge skills and behaviour that doctors need The book explicitly states what constitutes best practice and gives an account of the evidence base that corroborates this Describing the theoretical educational principles that lay the foundations of best practice in medical education the book gives readers a through grounding in all aspects of this discipline Contributors to this book come from a variety of different backgrounds disciplines and continents producing a book that is truly original and international **Boletin Internacional de Bibliografia Sobre Educacion** ,2003 The British National Bibliography Arthur James Wells,2004 *Bowker's Best Reference Books: Author index. Robert Tabachnick,Robert Lewis Koehl,Michael Oládèjo Afoláyan,Didacus Jules,Dallas Browne,2006 Comparative studies receive relatively little attention in U S education Comparative work done by people who are either international scholars or have spent extensive and intensive periods of time in international contexts rarely shows up on course syllabi or reading lists in most U S education courses However this volume is comprised of scholars at various phases of their careers early mid and late who have deep

investments in issues of international and global education U S students do not know very much about the countries of Africa because these countries cannot be understood outside of the history and foreign policies that implicate the United States The same thing might be said of Latin America the Caribbean and increasingly Asia The only way that broader and more complex perspectives of the post colonial world can emerge are in the presence of post colonial voices Globalisation for better or worse is a part of our post modern postcolonial condition Unless we do systematic study of the way global forces impact material realities and our symbol systems we cannot make sense of our world and our place in it The responsibility for the study of the global transnational transcultural and or comparative does not reside merely on those we see as other However their perspectives cannot be marginalised in the discourse This collection contains a superb mixture of voices and perspectives from around the world But it also contains a wonderful homage to two scholars B Robert Tabachnick and Robert Koehl whose work represent the leading edge of comparative education

Creating an Online Community of Action Researchers Josef Huber (Educator), Branko Bogner, Pascale Mompoin-Gaillard, 2017 The Council of Europe's Pestalozzi Programme promotes the message of the Organisation and its values human rights democracy and the rule of law in the practice of education formal non formal and informal and aims to support member states in including these ideals in their education systems Basing its approach to professional development firmly on social constructivism and social constructionism it invests in educators who create new practices This book represents an example of a transformational enterprise in which several practitioners from different parts of Europe gather in the Pestalozzi Programme community of practice and set out to learn how to become action researchers While many books focus on how to carry this out this publication is action research in action In addition it features examples of how participants can use online social platforms and affordable web applications in their collaboration and learning practices

E-learning in Tertiary Education Centre for Educational Research and Innovation, Organisation for Economic Co-operation and Development, 2005 E learning is becoming increasingly prominent in tertiary education Rationales for its growth are wide ranging complex and contested including widening access on campus pedagogic innovation enhancement of distance learning organisational change knowledge sharing and revenue generation This report looks at the practice in 19 tertiary education institutions and is designed to elucidate both good practice and international trends It is organised in three sections activities and strategies pedagogy technology and organisation cost efficiency and funding
