Open(ing) Education Dianne Conrad, Paul Prinsloo, 2020-01-20 There is no shortage of scholarly research that reflects the growing importance of open education whether referring to issues surrounding access to education formal informal or postformal different copyright licencing regimes e.g Creative Commons alternative forms of educational delivery such as Massive Open Online Courses MOOCs or alternative pathways to learning curriculum development and delivery and or assessing and accrediting learning So what can another publication add to our understanding of open education It has become clear that thinking in terms of the binaries of open versus closed can no longer account and do justice to the wide range of possibilities and the varying factors that destabilise some definitions and practices In *Open(ing) Education Theory and Practice* the authors therefore map open as emerging from a dynamic network or ecology of often mutually constitutive factors resulting in a range of possibilities The chapters in this book provide us with glimpses of open opening and opened with none of these being permanent states of affairs but rather contingent serendipitous often uncertain and fluid This book is unique not only with regard to its variety of approaches to mapping the various possibilities between open and closed but also with regard to the global spread of its many contributing authors

Knowledge, Control and Critical Thinking in Singapore Leonel Lim, 2015-09-07 This book examines how critical thinking is regulated in Singapore through the process of what the influential sociologist of education Basil Bernstein termed pedagogic recontextualization The ability of critical thinking to speak to alternative possibilities and individual autonomy as well as its assumptions of a liberal arrangement of society is problematized in Singapore's socio political climate By examining how such curricular discourses are taken up and enacted in the classrooms of two schools that cater to very different groups in society the book foregrounds the role of traditional high status knowledge in the elaboration of class formation and develops a critical understanding of post developmental state initiatives linked to the parable of modernization in Singapore *Knowledge Control and Critical Thinking in Singapore* offers chapters on Critical Thinking and the Singapore
