California Warbird Survivors 2002 Harold A. Skaarup,2002-07-18 During the twentieth century civil and military aviation has played a prominent role in the history and development of California Commercial operators have exploited the advantages offered by aircraft to overcome its unique challenges of geography and climate By virtue of California s comparative size and strategic importance on the West Coast of the continental USA a wide variety of military aircraft have been based there through the years The list of military aircraft types that made up the tapestry of California aviation is as extensive as the list of legendary figures who have contributed to

its amazing history While most of the military aircraft types no longer grace the airspace over California many can be viewed in their former splendor as they stand as gate guards or museum exhibits This booklet provides a comprehensive guide to where these restored aircraft can be found Complementing the details concerning aircraft specifications and roles the author has included many facts Finally the descriptions of the recovery restoration and preservation efforts stand as a tribute to the many volunteers who have devoted time energy and financial support to ensure this rich heritage is preserved *Curtiss C-46 commando* ,1980 **U. web the enthalpy change of neutralisation is defined as the enthalpy change when solutions of an acid and alkali react together to produce one mole of water for example $\text{HCl(aq)} + \text{NaOH(aq)} \rightarrow \text{NaCl(aq)} + \text{H}_2\text{O(aq)}$ you can see that one mole of water is produced when one mole of HCl or one mole of NaOH reacts
