

# WHY TEACH ACCESSIBILITY?

The students you teach today will build tomorrow's technology. Prepare them by teaching accessibility best practices to technology designers, engineers, and writers.

WHEN  
TECHNOLOGY  
BECOMES AN  
OBSTACLE FOR...

Getting cash  
at an ATM

Paying for a  
purchase at a  
checkout system

Getting past the  
login screen for your  
secure information

**What is  
accessibility?**  
Accessible technology is  
designed to meet diverse  
needs through flexibility  
and customization features  
and accessible content.

Accessibility is important to everyone...

**NINE IN TEN**

American  
adults use  
the internet.

And nearly

**ONE IN FIVE**

have a disability that may affect  
their ability to use the Internet.

For example, more than

**2,200**

accessibility-related lawsuits were  
filed in 2018 by plaintiffs claiming  
discrimination due to inaccessible  
websites, a 181% increase over 2017.

## EMPLOYMENT OPPORTUNITY ALERT!

Industry leaders like Adobe, Apple, Facebook, Google, Intuit, Microsoft, Oracle, Walmart eCommerce, and Verizon Media are actively recruiting people who can create products everyone can use, but they can't find appropriately trained talent due to a significant skills gap.

**63%**

of companies  
say their current  
staff don't have  
sufficient accessible  
technology skills

**93%**

say demand for  
accessibility skills  
will increase in  
the future.

## Schools are not preparing students with accessible design and development skills

**< 3%**

In a review of Teach Access member schools, less than 3% of engineering and computing technology course descriptions reference "accessibility" or "people with disabilities."

**60%**

Thus, 60% of industry respondents said it was difficult or very difficult for their organization to hire job candidates with accessibility skills.

## Stay ahead of the curve by preparing now

- Help your graduates stand out in the job marketplace by preparing them in advance with the necessary skills to meet the increasing demand for inclusive design thinking.
- Add accessibility to your curriculum in engineering, computer science, design, information science, and other disciplines that relate to technology.
- Accreditation organizations like ABET/ACM and NASAD are exploring specific accessibility additions to their criteria.
- Use Teach Access resources to fill the gaps in current program offerings. Teach students the skills that are in high demand.

**BUILD A BETTER FUTURE BY TEACHING ACCESSIBILITY**

### Use Teach Access resources

Teach Access offers resources and connections to fill gaps in current program offerings.

- Teaching resources you can use in your courses.
- Curriculum development grants to help you create teaching materials.

- Study away programs onsite in Silicon Valley for faculty and students to learn about accessibility skills and career opportunities.
