

## LESSON 3: DEVELOPMENTAL READING STAGES

---

To understand the reading process, it is important to get used to studying the developmental stages of reading. In this section, we will explore the available studies and begin to investigate these stages of development.

### Learning Objectives:

At the end of this module, you are expected to:

1. examine the stages in reading
  2. evaluate key characteristics of these stages.
- 

### READING STAGES

Harvard professor Jeanne Chall is known for his work on the developmental stages of reading. She was one of the first researchers to describe reading as a developmental process. His book, *Learning to Read: The Great Debate*, published in 1967, summarizes his findings on the controversy (which continues to this day) between advocates of phonetics and advocates of the semantic-based reading approach. I am. Ball's study shows that learning the alphabet's codes (also known as phonological recognition, word analysis, decoding, and connections between sounds and symbols) is important to begin learning to read, but less I conclude that it is not important. Another important factor is learning the language, good teaching materials, and a reasonable level of difficulty.

	Stage	Age	Key characteristics
0	Pre-reading and pseudo-reading	Up to 6	Pretend reading, turning pages. Some letter recognition, especially letters in own name. Often predicting stories and words.
1	Initial reading and decoding	6-7	Reading simple texts containing high frequency lexis. Chall estimated about 600 words understood.
2	Confirmation and fluency	7-8	reading more quickly, accurately, paying more attention to meaning of words. How many written words understood? 3,000.
3	Reading for learning	9-14	Reading for knowledge as motivation
4	Multiplicity and complexity	14-17	Responding critically to what they read and analysing texts.
5	Construction and reconstruction	18+	Reading selectively and forming opinions.
