Strategic Financial Management Casebook Rajesh Kumar, 2017-01-05 Strategic Financial Management Casebook strategically uses integrative case studies, cases that do not emphasize specific subjects such as capital budgeting or value-based management, to provide a framework for understanding strategic financial management. By featuring holistic presentations, the book puts readers into the shoes of those responsible for the world's largest wealth creators. It covers strategies of growth, mergers, and acquisitions; financial performance analysis over the past decade; wealth created in terms of stock returns since its listing in stock market; investment and financial decisions; cost of capital and corporate valuation. In addition, the casebook also discusses corporate restructuring activities undertaken by each company. Each chapter follows a template to facilitate learning, and each features an Excel-based case analysis worksheet that includes a complete data set for financial analysis and valuation. Introduces a conceptual framework for integrating strategy and finance for value creation. Emphasizes the roles of corporate governance, corporate social responsibility, and risk management in value creation. Encourages an analysis of investment financing and dividend decisions. Examines non-financial factors that contribute to value.

Strategic Management Casebook Michael A. Hitt, 2001 **Innovation In China: A Strategic Management Casebook** Hugh Thomas, 2022-04-08 Innovation has shaped society since civilization began. Imperial China was the most innovative society on earth, but it failed to join the 19th-century industrial revolution. In the 20th century, the Communist Party of China addressed that failure. Today, China boasts an internationally compliant, rapidly developing IP system. State planning continues to be critical, as in the case of the largest single technology acquisition and infrastructure project in world history: high-speed rail. But most of the innovation in China comes from the private sector; government incubators are among the government stimuli of private initiative, both local and global. And, as the case on Cisco shows, foreign MNCs' management of innovation in China is attractive but must involve coordination with government policy. This book presents cases where managers determine policy in China's increasingly innovative society. Readers take the roles of decision makers to make strategy decisions. The cases in this volume showcase China's traditional three teachings, socialist market institutions, and modern management using studies on current Chinese companies and their leaders, among them big names such as Haier and Huawei. Each case stands alone as teaching material for instructors. Taken together, the book presents evolving models of innovation. Their subtle differences from western constructs critically impact the development of our global society.

Casebook University of the West of England, 2008 **Strategic Management** Lester A. Digman, 1999 This case book clearly answers the need for a customized modular approach in the case portion of today's policy and strategy course at the

undergraduate or MBA level Rather than using individually selected cases individualized custom case books or settling for outdated information instructors can turn to this casebook for a full complement of the most up to date strategic management cases Because the main text and casebook are separated the case book is updated frequently ensuring coverage of recent developments To reflect the trends in today s business environment Digman offers a strong representation of computer and technology related cases Instructors who wish to highlight particular industries will find more than 18 cases and industry notes that can be combined to offer in depth coverage of at least seven industries In addition an extensive annotated listing of strategy and planning related web sites provides Internet support for virtually all of the cases
