Aesthetics fledgling of the philosophic brood is the most suspect of that family It is suspected of all the philosophical sins
vagueness disorder dogmatism emotionalism reductionism compartmentalization Sometimes its youth is thought to be a
sufficient excuse for these divagations Sometimes the very nature of its content involving the waywardness of genius the
remoteness of feeling from intellect the surd of inspiration in even the mildest appreciation are believed to condemn aes
thetics irrevocably to the underside of the civilized man s domain Some philosophers have gloried in this apparently mystical
and a rational quality and have seen in it the very nature of the beautiful others have come to regard it rather as evidence of
the unskillfulness of our minds and have turned away from aesthetic problems to the task of sharpening the aesthetician s
language and logic The laughter of the gods is not difficult to discern through the poetry of the more mystical aesthetician or
through the prose of the analysts Meanwhile the manifold complexities and problems of aesthetic experience invite our
understanding For aesthetic experience is a present fact of human life and may perhaps be understood by men Such at least
will be the present assumption This is the reason why the title of this book mentions art together with analysis for if art is
intelligible the work of art and the experience of it may be analyzed into its functional parts **News Aesthetics and Myth**
Shashidhar Nanjundaiah,2024-07-17 This book considers the presence of media illiteracy in a world in which we are
supposedly consumed by media live a media life in a media ecosystem surrounded by mediated communication Unpacking
this paradoxical situation the author proposes that before venturing into media literacy we must first understand the
workings of how mystification occurs Departing from the idea that aesthetics work on an agreed set of principles between art
and society the author applies this ideology of aesthetics to news based narration Using empirical cases from India the
author proposes demystification as a possible methodology to approach media illiteracy and recommends completely
transformed media literacy programs that deliver to communities drawing from the construct of critical pedagogy The book
offers the possibilities for a collectivistic non Western postcolonialist model of learning by using the very collective and
hierarchical identities of societies that must be critiqued This vital and innovative book will be an important resource for
scholars and students in the areas of media literacy and critical media literacy media education journalism mass

 however engage in virtually no recognizable aesthetic discourse Questions such as these have been formulated and discussed
 by scholars of remote cultures against the backdrop of a general scepticism about the prospects of escaping the conditioning
 of one s own aesthetic culture and attuning to the norms of a remote one This book makes a radical move it treats the remote
 observers lack of aesthetic insight not as a hindrance to aesthetic analysis but as a condition requiring an aesthetic theory
 that would make room for an aesthetic analysis independent of the model of competent aesthetic judgement or appreciation
