Audacious Reforms:

Audacious Reforms Merilee S. Grindle, 2003-05-27 *Audacious Reforms* examines the creation of new political institutions in three Latin American countries direct elections for governors and mayors in Venezuela radical municipalization in Bolivia and direct election of the mayor of Buenos Aires in Argentina Diverging from the usual incremental processes of political change these cases marked a significant departure from traditional centralized governments Such audacious reforms explains Merilee S Grindle reinvent the ways in which public problems are manifested and resolved the ways in which political actors calculate the costs and benefits of their activities and the ways in which social groups relate to the political process Grindle considers three central questions Why would rational politicians choose to give up power What accounts for the selection of some institutions rather than others And how does the introduction of new institutions alter the nature of political actions The case studies of Venezuela Bolivia and Argentina demonstrate that institutional invention must be understood from theoretical perspectives that stretch beyond immediate concerns about electoral gains and political support building Broader theoretical perspectives on the definition of nation and state the nature of political contests the legitimacy of political systems and the role of elites all must be considered While past conflicts are not erased by reforms in the new order there is often greater potential for more responsible accountable and democratic government

Converging Social Justice Issues and Movements Tsegaye Moreda, Saturnino M. Borrás Jr., Alberto Alonso-Fradejas, Zoe W. Brent, 2020-05-21 *Converging Social Justice Issues and Movements* argues that multiple contemporary converging crises have significantly altered the context for and object of political contestations around agrarian climate environmental and food justice issues This shift affects alliances collaboration and conflict among and between state and social forces as well as within and between social movements The actual implications and mechanisms by which these changes are happening are to a large extent empirical questions that need careful investigation The majority of the discussions in this volume are dedicated to the issue of responses to the crises both by capitalist forces and those adversely affected by the crises and the implications of these for academic research and political activist work Interdisciplinary in nature *Converging Social Justice Issues and Movements* will be of great use to scholars of agrarian politics as well as climate and environmental justice studies The chapters were originally published as a special issue in *Third World Quarterly*

From Patriarchy to Empowerment Valentine Moghadam, 2007-06-18 This rich anthology offers twenty studies on instances of emerging social justice and women's empowerment in the Middle East North Africa and South Asia These areas are home to huge populations where women's rights have withered under patriarchal rule and many are beset by civic unrest The book shows how changes are occurring as flood tides of capital people and information erode entrenched gender regimes giving birth to energetic and forward thinking women's movements Highly original conceptually sophisticated and imminently readable this book illustrates how local women are transforming their collective fates by questioning their status forming alliances demanding

full participation in economic development and the political process and mining opportunities afforded by globalization

The Public Wealth of Cities Dag Detter, Stefan Folster, 2017-07-18 How to leverage existing resources to meet the current and future needs of cities Crumbling streets and bridges Poorly performing schools and inadequate social services These are common complaints in cities which too often struggle just to keep the lights on much less make the long term investments necessary for future generations It doesn't have to be this way This book by two internationally recognized experts in public finance describes a new way of restoring economic vitality and financial stability to cities using steps that already have been proven remarkably successful The key is unlocking social human and economic wealth that cities already own but is out of sight or hidden A focus on existing public wealth helps to shift attention and resources from short term spending to longer term investments that can vastly raise the quality of life for many generations of urban residents A crucial first step is to understand a city's balance sheet too few cities comprehend how valuable a working tool this can be With this in hand taxpayers politicians and investors can better recognize the long term consequences of political decisions and make choices that mobilize real returns rather than rely on more taxes debt or austerity Another hidden asset is real estate Even poor cities own large swathes of poorly utilized land or they control underperforming utilities and other commercial assets Most cities could more than double their investments with smarter use of these commercial assets Managing the city's assets smartly through the authors proposed Urban Wealth Funds at arm's length from short term political influence will enable cities to ramp up much needed infrastructure investments India Today Stuart Corbridge, John Harriss, Craig Jeffrey, 2013-04-03 Twenty years ago India was still generally thought of as an archetypal developing country home to the largest number of poor people of any country in the world and beset by problems of low economic growth casteism and violent religious conflict Now India is being feted as an economic power house which might well become the second largest economy in the world before the middle of this century Its democratic traditions moreover remain broadly intact How and why has this historic transformation come about And what are its implications for the people of India for Indian society and politics These are the big questions addressed in this book by three scholars who have lived and researched in different parts of India during the period of this great transformation Each of the 13 chapters seeks to answer a particular question When and why did India take off How did a weak state promote audacious reform Is government in India becoming more responsive and to whom Does India have a civil society Does caste still matter Why is India threatened by a Maoist insurgency In addressing these and other pressing questions the authors take full account of vibrant new scholarship that has emerged over the past decade or so both from Indian writers and India specialists and from social scientists who have studied India in a comparative context India Today is a comprehensive and compelling text for students of South Asia political economy development and comparative politics as well as anyone interested in the future of the world's largest democracy *The World's Work*, 1924 **European Review of Latin American and Caribbean Studies**, 2001 The

Economic Foundations of Society Achille Loria,1899 The American Federationist ,1921 Includes separately paged Junior union section *Cameroon's industrial policies since 1945* Samuel Biroki,2021-12-09 Obviously the year 1945 can be recognised in this work as the beginning of the industrial adventure of Cameroon Thus the period of this essay can be structured into three cycles 1945 to 1985 during which the economic potential of the country flourished to reach the heights of Africa s industrialised nations This hope faded between 1986 and 2009 due to a poor industrial governance and since 2010 the announced Emergence perspective has been receding due to economic under performance This book allows for a balanced evaluation of the levers of industrial competitiveness and anticipates the economic emergence of Cameroon which is conditioned by the combination of institutional corporate social and territorial intelligence *Rise of the Spanish-American Republics as Told in the Lives of Their Liberators* William Spence Robertson,1918 **Italian Leaders of Today** Helen Zimmern,1915 **The Opinions of Dr. Chalmers Concerning Political Economy and Social Reform** Thomas Chalmers,1912 **Cambridge Magazine** ,1915 **Financial reform tracts.
