Arab Politics Michael N. Barnett, 1998 Barnett explores the relationships among Arab identity the meaning of Arabism and desired regional order in the Middle East from 1920 to the present focusing on Egypt Lebanon Syria Jordan Iraq Yemen and Saudi Arabia

Electing to Fight Edward D. Mansfield, Jack Snyder, 2007-01-26 Does the spread of democracy really contribute to international peace Successive U S administrations have justified various policies intended to promote democracy not only by arguing that democracy is intrinsically good but by pointing to a wide range of research concluding that democracies rarely if ever go to war with one another To promote democracy the United States has provided economic assistance political support and technical advice to emerging democracies in Eastern and Central Europe and it has attempted to remove undemocratic regimes through political pressure economic sanctions and military force In *Electing to Fight* Edward Mansfield and Jack Snyder challenge the widely accepted basis of these policies by arguing that states in the early phases of transitions to democracy are more likely than other states to become involved in war Drawing on both qualitative and quantitative analysis Mansfield and Snyder show that emerging democracies with weak political institutions are especially likely to go to war Leaders of these countries attempt to rally support by invoking external threats and resorting to belligerent nationalist rhetoric Mansfield and Snyder point to this pattern in cases ranging from revolutionary France to contemporary Russia Because the risk of a state s being involved in violent conflict is high until democracy is fully consolidated Mansfield and Snyder argue the best way to promote democracy is to begin by building the institutions that democracy requires such as the rule of law and only then encouraging mass political participation and elections Readers will find this argument particularly relevant to prevailing concerns about the transitional government in Iraq *Electing to Fight* also calls into question the wisdom of urging early elections elsewhere in the Islamic world and in China

Configuring Identity in the Modern Arab East Samir Seikaly, 2009

The Arab Middle East and the United States Burton Ira Kaufman, 1996 Kaufman also details the impact of the cold war on U S Arab relations In his view Washington s abiding concern with communist expansion after 1945 pervaded and perverted the U S approach to the Arab Middle East Combined with the rise of Arab nationalism Kaufman argues the hardening of the cold war led to an American myopia regarding the Middle East that a more regional perspective might have avoided

Great Britain, the United States, and the Security of the Middle East Magnus Persson, 1998 Examines the at once competitive and cooperative nature of Anglo American relations in the 1953 to 1955 formation of the multinational security organization known as the Baghdad pact which was designed to keep Soviet influence out of the Middle East The author argues that policy disagreements over such issues as the treatment of Iraq in contrast to the two countries shared view of the necessity of a containment policy against the Soviet Union are typical of the paradoxical nature of the relationship between the US and Britain a relationship which nevertheless is primarily characterized by collaboration

reader the theoretical background and shows its direct applicability through the foreign policy of Jordan **Journal of Palestine Studies** ,2000 *Politics of the Modern Arab World* Laleh Khalili,2009 Covers the Arab world from Morocco to the borders of Iran with the focus primarily on the 20th Century By choosing a wide array of authors many of whom are from the region or from the non Anglophone world the full breadth of worldwide scholarship on the modern Arab world is on display *Arms Control in the Middle East* Emily B. Landau,2006 This book focuses on the Middle East arms control process as it unfolded during the years 1992 1995 as part of the multilateral track of the Arab Israeli peace process initiated in Madrid October 1991 *The Middle East & South Asia Folklore Bulletin* ,2003 *Through the Eyes of the Mufti Amīn Ḥusaynī*,2009 Mufti Haj Amin al Husayni had no chance of prevailing against the well organized Zionist movement with its international support The Palestinian Party that he headed after the First World War was split conflicted and rife with corruption In particular it was isolated with neighbouring Arab countries more concerned with their own problems In light of this state of affairs Haj Amin sought to enlist the help of the Arab and Muslim world in favor of the Palestinians How did he do this When appealing to the Arab world he utilized the myth that the Zionists intended to use the Land of Israel as a base from which they would seek to conquer all Arab countries when appealing to the Muslim world he said that the Jews wished to destroy the al Aqsa mosque and build their temple on its ruins Another of the Mufti s myths is the story of the ancient conspiracy recounting the plot of the British and the Jews to expel the Arabs from Palestine and award the consequently uninhabited land to the Jews Even though this plot was unsubstantiated at the time it became anchored in the consciousness of millions of local Palestinians who believed the Mufti s inventions and were alarmed by them This remains true to a great degree to this very day The book presents the Mufti s essays the literal source of those myths as well as notes and essays which reply to the ideas presented by Haj Amin Subject Middle East Studies Politics International Relations *Choice* ,1994 Jordan's Diplomacy Musa Braizat,1995
