Millhauser,1987 *International Contracts and National Economic Regulation:Dispute Resolution Through International Commercial Arbitration* Mahmood Bagheri,2000-12-06 The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law conflict of laws contract law and economic regulations are functionally united to resolve international and multifaceted regulatory disputes He identifies the normative foundation of contract law as an important determinant in this process contending that contract law is essentially neutral and underpinned by the concept of corrective justice while economic regulations are mainly prompted by distributive justice Applying this corrective distributive justice dichotomy to international contracts the author critically assesses major conflict of laws approaches such as proper law the Rome Convention and governmental interest analysis which could disregard either public interest or private rights The author taking these theories into account proposes an alternative two dimensional interest analysis approach He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international commercial arbitration In adopting this approach arbitrators would take into account both corrective and distributive justice and to the extent that corrective justice prevails would be able to avert a total failure of the contract **A Study of Barriers to the Use of Alternative Methods of Dispute Resolution** ,1984 **Alternative Dispute Resolution System** Dr. Ashok Kumar,2021-09-09 ALTERNATIVE DISPUTE RESOLUTION SYSTEM Global And National Perspective The book provides suitable and codified materials and information regarding the Alternative Dispute Resolution System The whole book is divided into two parts and twenty chapters Part one is related to the International ADR and part two is concerned with the National ADR Chapter one is concerned with the Origin and Historical Development of ADR Chapter two is related to the ADR in the United Kingdom Chapter three provides the ADR in the USA Chapter four is related to ADR in Hong Kong

Alternative Methods of Dispute Resolution Frank E. A. Sander,1985 *Alternative Dispute Resolution in Energy Industries* Mustafa Oğuz Tuna,2022-04-03 The disputes that arise between host states and investors in the energy sector put a high number of valuable and vital projects in the countries at risk Investment treaty arbitration mechanisms as the traditional remedy have provided a solution to these problems for decades However as the number of disputes increases the sufficiency of arbitration in responding to disputes became questionable in addition to the long lasting and costly cases Accordingly ADR mechanisms outside the arbitration cannon have triggered growing interest among practitioners Despite the attraction and the apparent benefits of ADR such as being cheaper faster and with better outcomes compared to arbitration there are also hurdles in front that hinder the application of ADR This has lead to the underuse of ADR in appropriate contexts This study has been conducted to research the gap for the applicability of the ADR methods for investment disputes in the energy sector with the doctrinal analysis of the existing literature either promoting or opposing ADR Its findings provide guidance for alternative dispute resolution practitioners on when to use ADR how to use ADR and on what disputes ADR to be used to resolve conflicts in International Energy Investment
