*Making America Modern* Marilyn F. Friedman, 2018-04-23 A valuable resource for design professionals and historians this book chronicles the evolution of modern interior design in the United States throughout the 1930s. With more than 200 images and detailed descriptions design historian Marilyn F. Friedman presents more than eighty interiors by forty-five designers including Donald Deskey, Paul T. Frankl, Percival Goodman, Frederick Kiesler, William Lescaze, William Muschenheim, Tommi Parzinger, Gilbert Rohde, Eugene Schoen, Kem Weber, set designers Cedric Gibbons and Joseph Urban and industrial designers Raymond Loewy, Walter Dorwin Teague and Russel Wright. The book also highlights the work of women modernists who are practically unknown today including Virginia Conner, Freda Diamond, Eleanor Le Maire and Madame Majeska. Interiors cover the economic spectrum from those created for wealthy patrons who embraced the modernist aesthetic including Walter Annenberg, George Vanderbilt III, William Paley and Abby Rockefeller Milton to those designed with affordability in mind including private commissions as well as furniture and model rooms for manufacturers, design associations and museum exhibitions. The book also profiles in detail entire model homes that highlighted new concepts in design and construction such as Norman Bel Geddes' House of Tomorrow for Ladies Home Journal, Macy's Forward House, Frederick Kiesler's Space House for the Modernage showroom, Eleanor Le Maire's House of Planes for Abraham Straus and the model houses at the 1933 and 1939 world's fairs held in Chicago and New York respectively. The trajectory of American modern design during the 1930s was not linear. In rejecting the revivalism that had defined American design during the nineteenth century the designers covered in this book forged something new: an American movement defined by simplicity, practicality and comfort that embraced experimentation and variation in materials and style. An important survey of the early development of modern interiors in America year by year.

on the aesthetic traditions of the past and the other looking forward innovating creating and imagining interiors to suit modern sensibilities His reverence for traditional ideas does not restrict Jayne s understanding of what makes a beautiful room rather than seeking to replicate and repeat the exact decor from past Jayne finds inspiration in the distinctive histories of the spaces in which he works In every project he undertakes he draws on his rich academic background in the decorative arts to design interiors that harmonize with their historical settings yet also connect intimately to the active and modern lives of families who call these remarkable buildings home Jayne believes that American interior decoration is unique in its combination of elements from European and Asian cultural traditions with indigenous ideas and materials in its emphasis on comfort and livability and in its human scale Presented here for the first time his projects reflect this sensibility drawing from established traditions and reinterpreting them for contemporary life Drawing on the legacies of Albert Hadley and Sister Parish Jayne insists on authenticity and comfort incorporating elegant antiques and art with a subtle but warm palette and a welcoming setting In this richly illustrated collection of both city and country residences Jayne reveals the inspiration and thought behind each design identifying elements from the architecture the clients collections of art and antiques and from the site itself that serves as the basis for the decoration of the rooms

**Mid-Century Modern Interiors** Lucinda Kaukas Havenhand,2019-01-24 Mid Century Modern Interiors explores the history of interior design during arguably its most iconic and influential period The 1930s to the 1960s in the United States was a key moment for interior design It not only saw the emergence of some of interior design s most globally important designers it also saw the field of interior design emerge at last as a profession in its own right Through a series of detailed case studies this book introduces the key practitioners of the period world renowned designers including Ray and Charles Eames Richard Neutra and George Nelson and examines how they developed new approaches by applying systematic

and rational principles to the creation of interior spaces It takes us into the mind of the designer to show how they each used interior design to express their varied theoretical interests and reveals how the principles they developed have become embodied in the way interior design is practiced today This focus on unearthing the underlying ideas and concepts behind their designs rather than on the finished results creates a richer more conceptual understanding of this pivotal period in modernist design history With an extended introduction setting the case studies within the broader context of twentieth century design and architectural history this book provides both an introduction and an in depth analysis for students and scholars of interior design architecture and design history

**Sister Parish** Apple Parish Bartlett, Susan Bartlett Crater, 2012-11-15 This fast moving entertaining biography of the woman behind the Parish Hadley interior design firm is like eavesdropping on a lively society lunch Publishers Weekly A New York Times Notable Book Sister as she was called by family and friends was born Dorothy May Kinnicutt into a patrician New York family in 1910 and spent her privileged early life at the right schools yacht clubs and coming out parties Compelled to work during the lean years of the Depression she combined her innate design ability with her upper echelon social connections to create an extraordinarily successful interior decorating business The Parish Hadley firm s list of clients reads like an American Who s Who including Astors Paleys Rockefellers and Whitneys and she helped Jacqueline Kennedy transform the White House from a fusty hodge podge into a historically authentic symbol of American elegance Cozy airy colorful but understated her style came to be known as American country and its influence continues to this day Compiled by her daughter and granddaughter from Sister s own unpublished memoirs as well as from hundreds of interviews with family members friends staff world renowned interior designers Mark Hampton Mario Buatta Keith Irvine Bunny Williams and her longtime partner Albert Hadley among many others and clients including Annette de la Renta Glenn Bernbaum and Mrs Thomas Watson Sister Parish takes us into the houses and lives of some of the most fascinating and famous people of this inimitable woman s time Fully updated the revised edition features a new foreword by Albert Hadley and an appreciation by Bunny Williams who began her career at Parish Hadley Selections from Mrs Parish s own rather wonderful often moving reminiscences intercut with observations from her family employees clients and friends The New York Times Book Review Sister s delightfully self deprecating humor illuminates the biography throughout Kirkus Reviews Includes photographs

**The Tasteful Interlude** William Seale, 1981 The historian s dilemma is illustrated in these photographs of interiors As complete room settings most of them are quite foreign to us we identify only with their parts a familiar type of chair or table or vase Household things are common fragments of history their individual meanings and purposes are redefined rapidly and their contexts are subject to alteration Some objects survive many years because they are adaptable Others grown obsolete and are discarded The thousands of household things that appear in these pictures are seen as they were in actual daily use in the past It is probable that the rooms did not remain as we see them for very long for small revisions take place endlessly in any house Were it not for the

cameras of some six dozen photographers these few scenes would have passed away quietly
