Development Without Aid David A. Phillips, 2013-04-15 Development Without Aid opens up perspectives about foreign aid to the world's poorest countries Growing up in Malawi the author developed a sense of the limitations of foreign assistance and from this evolves a critique of foreign aid as an alien resource unable to provide the dynamism that could propel the poorest countries out of poverty The book aims to help move the discussion beyond foreign aid It examines the rapid growth of the world's diasporas as a quasi indigenous resource of increasing strength in terms of both financial and human capital and considers how far such a resource might supersede aid It uses extensive research findings to explore the possibilities for a resumption of sovereignty by poor states especially in Africa over their own development with the assistance of the world's diasporas
