*Deep Perception* Jeremy Barris, 2024-08-27 *Deep Perception* The Direct Awareness of Individual Being and the Practice of Being Who We Are argues that direct perceptions of the being or essential character of a person thing or situation are possible These include perceptions of what integrally belongs to that being The book also argues that these perceptions are enactments and expressions of our own being While the mainstreams of both analytic and continental philosophy reject the conceivability of such a perception Jeremy Barris argues that these traditions own implicit concepts of being allow and in fact account for its meaningfulness and possibility Drawing on these implicit concepts and on Zen Daoist and some esoteric traditions *Deep Perception* develops an account of the nature and logic of these deep perceptions and explores the nature and method of engaging in these perceptions what is involved in living with them and their implications for various areas of our conduct

*Saving Society* Bernard S Phillips, David Christner, 2015-12-22 Why do many problems throughout the world seem to be getting worse *Saving Society* argues that a dramatic change in our mode of thinking is required The authors show how many of our fundamental assumptions lead to an overly bureaucratic approach blocking solutions to many of our problems They contrast our present emotional repression and conforming behaviour with a more liberated form of perception thought and emotional expression which could allow us to break out of these bureaucratic routines *Saving Society* shows how this alternative approach might lay the basis for more effective and democratic institutions
