

Desertification

The image shows a wide, flat landscape under a pale, overcast sky. The ground is a mix of light brown and tan soil, with scattered small, dark rocks. In the middle ground, there are several small, sparse, and somewhat stunted trees or shrubs. In the far background, a dense line of taller, darker green trees stretches across the horizon. The overall scene conveys a sense of aridity and environmental degradation.

Desertification is accelerating in dryland regions due in part to repetitive drought, unsustainable soil management and overgrazing.
