Dualism in Transformation Shaul Shaked, 2005-08-04 First Published in 1994 Routledge is an imprint of Taylor Francis an informa company Brain States and Neural Mechanisms of Consciousness Olivia Gosseries, 2022-09-30 **The Moral Order of the World in Ancient and Modern Thought** Alexander Balmain Bruce, 1899 *Finnish Yearbook of International Law, 1999* Jarna Petman, Martti Koskenniemi, 2002-04-01 Despite its Finnish initiative and pedigree the Finnish Yearbook of International Law does not restrict itself to purely Finnish topics On the contrary it reflects the many connections in law between the national and the international The Finnish Yearbook of International Law annually publishes articles of high quality dealing with all aspects of international law including international law aspects of European law with close attention to developments that affect Finland Its offerings include longer articles of a theoretical nature exploring new avenues and approaches shorter polemics commentaries on current international law developments book reviews and documentation of relevance to Finland's foreign relations not easily available elsewhere The Finnish Yearbook offers a fertile ground for the expression of and reflection on the connections between Finnish law and international law as a whole and insight into the richness of this interaction **OTTO HINTZE AND HISTORICISM: A STUDY IN THE TRANSFORMATION OF GERMAN HISTORICAL THOUGHT.** MILTON COVENSKY, 1953 The Mystical Science of the Soul Jessica A. Boon, 2012-01-01 Ultimately I propose that considering internalization as embodiment is a critical methodological shift in understanding mystical methods in general and especially for probing recollection mysticism in depth The inner man as opposed to the outer man is a Pauline and Lutheran commonplace that is too frequently taken out of context leading historians of the Renaissance in general and of Spanish Renaissance religion in particular to value references to internal or mental methods of spirituality as an improvement over external or bodily rituals This book takes its cue from the recent cognitive turn in medieval studies that complicates studies of the body in religion by focusing on the embodied aspects of cognition claiming a continuum between body and soul rather than a hierarchy I argue that medieval theories of cognition made the divorce of the body from the soul impossible for a Galenic doctor even one who spoke of the body and the world with contempt and by implication impossible for his Castilian audience Without serious consideration of Laredo's reliance on an embodied soul rather than on a body-soul dualism therefore no proper assessment of the unitive stage of recogimiento can be made Introduction p 67 **An Outline of the Idealistic Construction of Experience** Sir James Black Baillie, 1906 Knowledge, 1883 Intercultural Relations, Cultural Transformation, and Identity Teresita Ang See, 2000 **Psychological Review** James Mark Baldwin, James McKeen Cattell, Howard Crosby Warren, John Broadus Watson, Herbert Sidney Langfeld, Carroll Cornelius Pratt, Theodore Mead Newcomb, 1909 Issues for 1894 1903 include the section Psychological literature **Systematic Theology: Reason and revelation. Being and God** Paul Tillich, 1966 *Honoring the Ancestors* Donald H. Matthews, 1998-07-02 Donald Matthews affirms once and for all the African foundation

of African American religious practice His analysis of the methods employed by historians social scientists and literary critics in the study of African American religion and the Negro spiritual leads him to develop a methodology that encompasses contemporary scholarship without compromising the integrity of African American religion and culture Because the Negro spiritual is the earliest extant body of African American folk religious narration Matthews believes that it holds the key to understanding African American religion He explores the works of such seminal black scholars as W E B DuBois Melville Herskovits and Zora Neale Hurston tracing the early development of the African centered approach to the interpretation of African American religion This approach involves cultural structuralism the author s term for the method used by DuBois Herskovits and Hurston that emphasizes the thick reading of narrative expressions Such a reading allows the scholar to identify the cultural significance of particular oral and written texts and serves as a point of identification and a cultural link between African and African American religion Matthews close analysis of the spiritual employs a dialectical and postmodernist reading and reveals a religious philosophy that addresses the deepest concerns and desires of Africans in America These concerns are cultural political and psychological but are ultimately related to African religious structures of meaning This book poses a challenge to end the battle between Afrocentrists and multiculturalists by acknowledging their common intellectual heritage in the works of DuBois Herskovits and Hurston It will be of great interest to students and scholars of African American religion and culture and those interested in Afrocentric literature
