## **Ark Baby:**

**Oh, Baby!** Judy Baer, 2008-06-01 From the moment we met obstetrician Clay Reynolds scorned my profession as a birthing coach His scathing remarks left me crying on the shoulder of my potbellied pig Gertie It seems only the handsome doc s eight year old son who thinks I hung the moon can make Clay be civil to me Clay is a great doctor and loving father And we re finding a lot in common as we volunteer together at a free clinic But he s still frowning at me in the delivery room So how can I convince him God gave me skills that complement his own Maybe with a little help from above I can change Clay s attitude toward doulas in general and me in particular

The Otherworlds of Liz Jensen Helen Esther Mundler, 2016 The first study of one of the most innovative of contemporary novelists Liz Jensen and of the otherworlds in her fiction Liz Jensen a British author of eight novels is among today s most innovative writers Her literary thrillers occupy the terrain between realism and science fiction This first study of Jensen centers on the very diverse otherworlds she creates in each of her novels which can consist of an indeterminate space of ontological instability a zone in which real and unreal converge to destabilize the realist text as in *Egg Dancing* 1995 and *The Ninth Life of Louis Drax* 2004 In other novels the otherworld relies on defamiliarization thus in *War Crimes for the Home* 2002 the experience of war is transformed by being seen from a woman s perspective In still other cases the otherworld spans the novel s entire topos as in *The Paper Eater* 2000 the full blown utopia at the center of Jensen s oeuvre Jensen s work approaches contemporary social issues such as religious fundamentalism ecological disaster and assisted procreation Simultaneously it displays a number of characteristics of erudite fiction including self reflexivity inter and intratextual reference parody pastiche and burlesque Notwithstanding the popular elements of Jensen s work Helen E Mundler s study adopts a rigorously academic approach to it referencing canonical works but also more innovative texts particularly by contemporary women writers as points of comparison Helen E Mundler is Senior Lecturer in English Studies at UPEC Universit Paris Est Crteil with a research affiliation at the Universit Paris X Nanterre La Dfense
