Modern Armored Fighting Vehicles Thomas Bruce,2018-09-13 Armored vehicles are essentially armed and armored high mobility off road vehicles While their mobility aspects are clearly very important there are many high mobility off road vehicles not designed for military applications Therefore the key defining aspects of an Armored Fighting Vehicle AFV as the name implies is the armament they carry to inflict damage and the armor they possess as protection against damage There has within recent years been a great number of exciting and innovative developments in critical AFV technologies Key among these are significant enhancements to both armament and armor The primary armament of an AFV consists of relatively large caliber guns that fire a range of ballistic munitions including kinetic energy penetrators high explosive incendiary and shaped charge warhead tipped rounds Some guns are also capable of firing anti tank guided missiles In addition to the main weapon many AFV s are also equipped with a range of secondary weapons including machine guns grenade launchers mortar tubes and missile launchers These weapons and their capabilities in penetrating standardized armor is reviewed in detail in this volume AFV armor is designed to protect the vehicle against both threats fired by other AFVs and threats originating from any other source including buried mines infantry portable weapons air launched missiles artillery shells and improvised devices Protection against each type of threat often requires a unique type of armor solution These solutions are then layered onto the vehicle to provide the required protection Vehicle armor systems include applique armor spaced armor reactive armor cage armor netted armor electric armor spall systems dazzlers jammers and Active Protection Systems APS Each type of armor is covered in detail in this volume both at a system level and with respect to their integration into specific AFVs This volume covers the theory of AFV design of armament performance and of armor design and performance As well most modern AFVs are described and discussed A modern AFV is considered to be one that was either designed over the last 20 years or is likely to continue to see service with front line combat troops for the foreseeable future Main battle tanks light tanks reconnaissance vehicles tracked and wheeled armored personnel carriers infantry fighting vehicles and tank destroyers are covered

Foss,2002 Tanks and armoured fighting vehicles have revolutionised modern warfare dominating the battlefield in conflicts
all over the world with their firepower armour and mobility Featured in this book are over 900 tanks armoured personnel
carriers self propelled guns reconnaissance vehicles and armoured cars *American Wheeled Armoured Fighting Vehicles*
Michael Green,2016-10-31 A solid quick reference on the evolution of American wheeled AFVs and provides excellent visual
information for the enthusiast and researcher War Wheels Numerous wheeled armoured fighting vehicles have seen service
in the US armed forces on and off for over eighty years There have been various changes of policy and twice after the Second
World War and Vietnam they went out of favour but their use is now well established This well researched and superbly
illustrated book describes all the different types and variants since the first M1 was ordered in 1931 The M8 armoured car
was widely used during World War Two but it was not until Vietnam that further wheeled AFVs came into service notably the
M706 armoured car After a lull the US Marine Corps adopted the Light Armoured Vehicle LAV in 1983 The US Army first
used armoured Humvees in 1994 and variants remain in service M1141 and M1116 Other types today include the Guardian
M1117 and the Army version of the LAV names the Stryker To meet the operational requirements of Iraq and Afghanistan the
Mine Resistant Ambush Protected vehicle MRAP was ordered in bulk from 2007 A must have for the military history buff this
volume contains rare photographs from wartime archives Modellers will appreciate the clarity of the images for details like
armor and stowage FineScale Modeler *Marines Under Armor* Kenneth Estes,2013-04-11 In this story of men machines
and missions Kenneth Estes tells how the U S Marine Corps came to acquire the armored fighting vehicle and what it tried to
do with it The longtime Marine tank officer and noted military historian offers an insider s view of the Corps s acquisition and
use of armored fighting vehicles over the course of several generations a view that illustrates the characteristics of the Corps
as a military institution and of the men who have guided its development His book examines the planning acquisition and
employment of tanks amphibian tractors and armored cars and explores the ideas that led to the fielding of these weapons
systems along with the doctrines and tactics intended for them and their actual use in combat Drawing on archival resources
previously untouched by researchers and interviews of both past and serving crewmen Estes presents a unique and
unheralded story that is filled with new information and analysis of the armored vehicles their leaders and the men who
drove these steel chariots into battle Such authoritative detail and documentation of the decisions to acquire develop and

organize armored units in the U S Marine Corps assures the book s acknowledgement as a definitive reference [Armored Fighting Vehicles](#) Philip Trewhitt,2001-08 Bradley infantry fighting vehicle *Modern Armored Fighting Vehicles* Jack Livesey,2008 Previously published as part of a larger volume The world encyclopedia of armoured fighting vehicles T p verso

Armored Car R. P. Hunnicutt,2015-09-15 The armored car has played a major role in American military operations since the relatively early days of the 20th Century In 1989 Col Royal P Davidson arranged for the installation of a 30 caliber Colt machine gun on a Duryea light three wheeled car In doing so he jump started the development and production of armored fighting vehicles that have served in the American military ever since Although the very first armored cars were merely outfitted with a gunshield they were soon fully protected by armor plating In this installment of R P Hunnicutt s 10 volume series on the history of American armored vehicles he details their early development through WWI WWII Korea and Vietnam Beginning with the development of armored cars on American soil at the outbreak of WWI although none were ever shipped overseas Hunnicutt goes on to describe the production of armored cars based on commercial car and truck chassis in the 1920s These vehicles eventually reached limited production as the armored car M4 With detailed drawings and photographs to illustrate the history Hunnicutt describes the development of the armored car T3 which was also designated as scout car T1 The development of these lightweight scout cars which met the needs of the cavalry made the armored car unnecessary by 1937 Although production of armored cars stopped for the American military American development continued on armored cars intended for British use However in 1942 as the Palmer Board decided to limit the weight of reconnaissance vehicles the light armored car T22E2 was standardized as the M8 and put into production The M8 and a variation the M20 served in the U S Army until after the Korean War with new models developed for use in Vietnam Spanning the history of American wheeled combat vehicles Hunnicutt s Armored Car is a must have for anyone with a keen interest in the history of American military operations and equipment [German Late War](#)
