Creating A Data Driven System:

Creating a Data Driven System Peter Holly, 2006 Merrill Education and ETS Educational Testing Service are proud to present *Creating a Data Driven System* by Peter J Holly ETS 2003 This brief workbook provides a model of what can be done to become a data using system at the local level for the twin purposes of accountability and development In building on current practice this model also extrapolates from the present to the future tense by fitting the existing puzzle pieces into a more holistic comprehensive system of data use

[Polynomial Approximation for Data-Driven System Analysis and Control of Nonlinear Systems](#) Tim Martin, 2024-12-15 This thesis presents data driven methods for nonlinear systems enabling the verification of system theoretical properties and the design of state feedbacks based on measured trajectories Despite noisy data the developed methods provide rigorous guarantees and leverage convex optimization Classical control techniques require a mathematical model of the system dynamics which derivation from first principles often demands expert knowledge or is time consuming In contrast data based control methods determine system properties and controllers from system trajectories Whereas recent developments address linear systems dynamical systems are generally nonlinear in practice Therefore this thesis first introduces a data based system representation for unknown polynomial systems to determine dissipativity and integral quadratic constraints via sum of squares optimization The second part of the thesis establishes a polynomial representation of nonlinear systems based on polynomial interpolation Due to the unknown interpolation polynomial a set of polynomials containing the actual interpolation polynomial is deduced from noisy data This set along with a polynomial bound on the approximation error forms the basis for determining dissipativity properties and designing state feedbacks with stability guarantees utilizing robust

control techniques and sum of squares relaxation
