The Demon of the Absolute Paul Elmer More, 1928 The philosophy of naturalism has come pretty well to dominate our thought We are victims of the Demon of the Absolute the Deluder who can take many forms but who for us appears as the idol of Nature set high on the throne of omnipotence The manifold results of this idolatry I have tried to analyse i.e. analyze in some of the following essays Pref p x xi

The Moving Form of Film Lúcia Nagib, Stefan Solomon, 2023 The Moving Form of Film

Historicizing the Medium through Other Media charts the ways in which crossing borders between film and other arts and media can provide an encompassing inclusive and non teleological understanding of film history Evolutionary narratives of cinema have traditionally adopted the Second World War as a watershed that separates classical Hollywood films from modern European productions a scheme that subjects the entire world to the cinematic history of two hegemonic centres In turn histories of film as a technological medium have focused on the specificity of cinema as it gradually separated from the other art and medial forms theatre dance fairground spectacle painting literature still photography and other pre cinematic modes Taking an ambitious step forward with relation to these approaches this book focuses on the fluid quality of the film form by exploring an array of exciting and often neglected artistic expressions worldwide as they compare and interconnect films across temporal geographical and cultural borders By observing the ebb and flow of film s contours within the bounds of other artistic and medial expressions the chapters aspire to establish a flexible historical platform for the moving form of film posited from production to consumption as a transforming and transformative medium
