America In Poetry:

American Poetry David Caplan, 2021-11 *American Poetry A Very Short Introduction* proposes a new theory of American poetry. Written in engaging language and enlivened with illuminating examples, it shows that two characteristics mark the vast contentious literature. On the one hand, several of its major poets and critics claim that America needs a poetry equal to the country's own distinctiveness. On the other hand, American poetry welcomes techniques, styles, and traditions that originate from outside the country. Its influences range far beyond America's borders. The force of these two competing characteristics drives both individual accomplishment and the broader field. *American Poetry and Culture, 1945-1980* Robert Von Hallberg, 1985. Challenging the common perception of poets as standing apart from the mainstream of American culture, Robert von Hallberg gives us a fresh and unpredictable assessment of the poetry that has come directly out of the American experience since 1945. Who reads contemporary American poetry? More people than were reading new poetry in the 1920s, von Hallberg shows. How do poets respond to the public preoccupations of their readers? Often with fascination. Von Hallberg puts the poems of Robert Creeley and John Ashbery together with the postwar outburst of systems analysis. The 1950s tourist poems of John Hollander, Adrienne Rich, W. S. Merwin, and James Merrill are treated as the cultural side of America's postwar rise to global political power. There are chapters on the political poems of the 1950s and 1960s and on Robert Lowell's sympathy for the imperialism of his liberal contemporaries. Poems of the 1970s on pop culture, especially Edward Dorn's *Slinger* and some from the suburbs of the 1980s, are shown to reflect a curious peace between the literary and the mass cultures. **American Poetry: The Seventeenth and Eighteenth Centuries (LOA #178)** David Shields, 2007-10-18. This groundbreaking Library of America volume offers a fresh look at early American poetry, charting its evolution over a span of almost two centuries, from the first years of English settlement in the New World to the death of George Washington. Gathering the work of more than 100 poets, including many poems never previously anthologized and some published here for the first time, it is the most comprehensive collection of its kind ever assembled—a celebration of the rich, varied, and often surprising beginnings of American poetry. The range of voices is unprecedented: broadside and newspaper satires, epitaphs, children's verse, popular songs, ballads, and Christian hymns evoke the vital currency of poetry in daily life; exhortatory elegies for public figures and historical epics declaimed on occasions of state stand alongside intricate meditative lyrics and private epistolary verses. The dramatic unfolding of American history is made immediate and vivid in the words of the participants: William Bradford reflects on the growth of New England's first colonies; Roger Wolcott recounts the incidents of the Pequot War; Thomas Paine hails the victories of the American Revolution; Ann Eliza Bleecker describes her flight from General Burgoyne's invading army; loyalist Jonathan Odell bitterly mocks the new Continental Congress. The first comprehensive anthology of early American poetry in more than a generation, this volume incorporates recent scholarly discoveries that have altered our understanding of the early American literary landscape. Alongside generous selections from

Fictions of Form in American Poetry Stephen Cushman, 1993 In the 1830s Alexis de Tocqueville prophesied that American writers would slight even despise form that they would favor the sensational over rational order He suggested that this attitude was linked to a distinct concept of democracy in America Exposing the inaccuracies of such claims when applied to poetry Stephen Cushman maintains that American poets tend to overvalue the formal aspects of their art and in turn overestimate the relationship between those formal aspects and various ideas of America In this book Cushman examines poems and prose statements in which poets as

diverse as Emily Dickinson and Ezra Pound describe their own poetic forms and he investigates links and analogies between poets notions of form and their notions of Americanness The book begins with a brief discussion of Whitman who said The United States themselves are essentially the greatest poem Cushman takes this to mean that American poetry has succeeded in making fictions about itself which persuade its readers that its uniqueness transcends merely geographical boundaries He explores the truth of this statement by considering the Americanness of Emily Dickinson Ezra Pound Elizabeth Bishop and A R Ammons He concludes that the uniqueness of American poetry lies not so much in its forms as in its formalism and in the various attitudes that formalism reveals Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These paperback editions preserve the original texts of these important books while presenting them in durable paperback editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Contemporary American Poets** Mark Strand,1969 By 1940 the revolution we call Modernism had run its course the battle against the nineteenth century had been won with time s help and the poetry of experimentation was so secure that it became a new academicism Whereas we had gone out of our way in earlier decades to make a pact with the most radical poet of the nineteenth century Walt Whitman we accepted quite matter of factly our association with Longfellow In fact it is part of the character of American poetry since 1940 to have made friends with everyone Mark Strand from the Preface

The Image and Influence of America in German Poetry Since 1945 Gregory Divers,2002 Examines the image of the US in German poetry and the reception and influence of American poetry in Germany since 1945 This book focuses on the image of the US in German poetry and the reception of American poetry in Germany since 1945 Gregory Divers examines poems by major figures in 20th century German literature Benn Brecht Bachmann Jandl and Grass among others and by other poets who shaped America s postwar image in Germany Divers traces America s postwar status in Germany from the prisoner of war poems of G nter Eich to the pop poetry of Rolf Dieter Brinkmann and Peter Handke Continuing he finds that although the 1960s protest poems of Erich Fried and others reflect the tarnishing of America s image due to Vietnam 1970s travel poems by Brinkmann Kunert and Kunze confirm the resiliency of that image Finally Divers looks at poems by Hartung Delius and Kling to illustrate the new heights reached by America s image within German literary circles during the 1980s and the status of America in Germany after reunification In charting these developments in postwar German poetry Divers also shows how American influences are crucial to its understanding not only surveying postwar German reception of Whitman Eliot Pound and William Carlos Williams but also examining the influence of such figures as Charles Olson and Robert Creeley Allen Ginsberg and the Beats Frank O Hara and John Ashbery and Robert Lowell and Sylvia Plath Gregory Divers is Assistant Professor of German at Saint Louis University [Anthology of Magazine Verse for ... and Year Book of](#)
