*Creature Comforts* Rochelle Holt, 2008 To understand the shifting emotions human beings go through daily regarding any and all relationships to family friends lovers acquaintances and strangers ourselves included each of us needs to continue to evolve and to become educated while living creatively in a stressful society and world My original purpose was to match a different animal and subject for every day of the year As it turned out some months have more entries than others but none is less than a month without Sundays and or weekends Often true benefit only takes place when the self who feels victimized expresses emotions on paper i e in form of a missive to someone else to comprehend whatever may be bothering the letter writer But these letters aren't intended to be sent they are private Instead consider this volume a way and means to comfort and or offer a solution or resolution to a troubling issue For only by appreciating ourselves can we totally fathom others before ultimately caring about humanity at large enough to accept and tolerate eventually love each other's distinct uniqueness in this vast universe still striving for peace and harmony Writing letters has become a dying art So too comprehending the significance of all creatures to balance our environment that is dependent on survival of on animals and insects Perhaps you won't be able to resist sending one or two missives to the right or wrong person That's up to you I offer *Creature Comforts* with the genuine hope that you may realize every creature on earth has a purpose From the Author's Introduction dated Jan 21 2008 *California. Supreme Court. Records and Briefs* California (State)., Number of Exhibits 1\_x000D\_ Court of Appeal Case s A046552 *California. Court of Appeal (1st Appellate District). Records and Briefs* California (State)., *Life Strategies, Human Evolution, Environmental Design* V. Geist, 2013-11-11 Consider that you were asked how to ensure human survival Where would you begin Conservation of resources jumps to mind We need to conserve resources in order that economic activities may continue Alas this is a false start Resources are always defined by a given economic system and only it determines what is and what is not a resource Therefore conserving resources implies only the perpetuation of the appropriate economic system Conservation of resources as we know them has nothing to do with the survival of mankind but it has very much to do with the survival of the industrial system and society we live in today We have to start therefore at a more basic level This level some may argue is addressed by ensuring for human beings clean genes Again this is a mistaken beginning It is thoroughly mistaken for reasons of science It is a false start because malfunctioning organs and morphological structures are not only due to deleterious hereditary factors but particularly due to unfavorable environments during early growth and development Moreover eugenics is not acceptable to any but a small fraction of society Eugenics may not be irrelevant to our future but is premature and should be of little concern until we understand how human genes and environment interact *Beyond the Human-Animal Divide* Dominik Ohrem, Roman Bartosch, 2017-11-21 This volume explores the potential of the concept of the creaturely for thinking and writing beyond the idea of a clear cut human animal divide presenting innovative perspectives and narratives for an age which increasingly confronts us with the

profound ecological ethical and political challenges of a multispecies world The text explores written work such as Samuel Beckett's *Worstward Ho* and Michel Foucault's *The Order of Things* video media such as the film *Creature Comforts* and the video game *Into the Dead* and photography With chapters written by an international group of philosophers literary and cultural studies scholars historians and others the volume brings together established experts and forward thinking early career scholars to provide an interdisciplinary engagement with ways of thinking and writing the creaturely to establish a postanthropocentric sense of human animal relationality
