Deadly Magic:

Artifacts, Dragons, and Other Lethal Magic (Dowser 6) Meghan Ciana Doidge, 2022-04-20 I wasn't even remotely interested in collecting the third instrument of assassination. It was far better for everyone involved and for Warner specifically if I just let it be. And since I was the only one who could retrieve the artifacts, I figured it was my call to make. I was wrong. And though that wasn't unusual, I was just so so wrong about everything. I was wrong about who I was protecting and why I was wrong about who and what I could control. And I was wrong about who I was becoming: Baker of cupcakes, maker of trinkets, half witch, half dragon, dowser, alchemist. Why couldn't I just be Jade. *Artifacts, Dragons, and Other Lethal Magic* is the sixth book in the Dowser series, which is set in the same universe as the Oracle, Reconstructionist, Amplifier, Archivist, and Misfits of the Adept Universe series. While it is not necessary to read all the series in order to avoid spoilers, the ideal reading order of the Adept Universe begins with *Cupcakes, Trinkets, and Other Deadly Magic*, Dowser 1. **Power and Magic in Italy** Thomas Hauschild, 2011-03. Published in Association with the European Association of Social Anthropologists.

Snag Meghan Ciana Doidge, 2025-09-26 I've awakened to find bits of my missing past memories and bonds that I didn't know had been torn from me, captured within photographs arrayed across the walls of the caretaker suite. Displayed for me to find them, to discover everything my aunt has actively hidden from me for over thirteen years. Secrets she's taken with her into the After, leaving me all the power but none of the foundation I need to be the Conduit. Then I discover that my aunt's secrets go beyond her betrayal, creating a systemic rot, an unraveling that began before I was even born. The resulting ramifications weave together to unsettle, to overwrite any attempt I could make to fortify the connection between me and my universe, promised mates. Without them, I'm unmoored. And unmoored, I cannot possibly wield all the power the world needs me to wield. That the universe needs me to wield. Jealousy, envy, grief, love. Only choice matters, above all else. Just not for me. I move as the universe wills. Or I suffer the consequences. *Snag* is the second book in the Conduit series, a secondary universe urban fantasy why-choose-romance, which is set in the same universe as the Mirth duology. While it's not necessary to read all the interconnected series, the ideal reading order is as follows: *Awry*, Conduit 1; *Grand Romantic Delusions and the Madness of Mirth*, Part One; *Grand Romantic Delusions and the Madness of Mirth*, Part Two; *Snag*, Conduit 2; *Warp*, Conduit 3. **Hell Bent** Devon Monk, 2023. USA Today Bestselling author Devon Monk's fast, gritty, magic-fueled urban fantasy adventure. Enemies to brothers. Life magic vs. Death magic. End of the world, no holds barred action. Fully updated author edition, bursting with extra heart, snark, and ass-kicking. Shamus Shame Flynn is a Death magic user with a smart mouth and a bad attitude. His job: riding a desk while keeping an eye on the city's humdrum magic users, isn't making his mood any better, either. Sure, the most dangerous magic was locked away for good three years ago, but that doesn't mean people have stopped trying to access the old, deadly powers. Shame isn't trying to access the deadly powers because he already found a loophole. He can break magic and make it just as powerful as it used to be, as long as he gets the cooperation of goody-good Life magic user Terric Conely.

Terric Conley has devoted his life to enforcing magical laws and he's not about to change now. Besides breaking magic will only lead to disaster and he refuses to be a part of Shame's death wish. But when dark government forces and an assassin bent on revenge align to kill the people, Shame and Terric care about there is only one choice left: Break magic, pay the price and hunt the killers all the way to hell and back again.

The Hand Lewis Dayton Burdick, 1905 This monograph argues that although legendary stories are not chronicles of actual events they are of historical value in helping us to determine the intellectual characteristics social conditions and moral standards of the various peoples of whose life and literature they have formed a part. Believing that all legends fables and myths contain some germs of truth and are invaluable sources of information to us the author has made free use of them in these pages. Indeed he argues from them alone sometimes can be gained correct ideas of the true meaning and significance of rites and customs which still in modified survivals form an interesting and important part of our daily lives.
