

Dear Linda,

After a field trip to Hanoi today, I'm worried about the future of this city.

About 8.4 million of people live in Hanoi in 2024, which makes it become the 2nd most crowded city in Vietnam.. I'm concerned that overpopulation will have detrimental effects on city life such as unemployment, inflation, social violence or low quality of life.

Pollution is becoming more and more serious as there are not only air pollution but also noise pollution and water pollution. The water is contaminated by domestic waste and industrial waste. I find it concerning that the health of Hanoians and visitors will be severely affected after living here for a long time.

I'm fearful that with the continuous population growth, the prices of energy, food and water will increase significantly. This will enlarge the gap between the rich and the poor and cause riots and protests.

Best,

Hoan
