Deadly Voyages Steven W. Bender, Veronica Fynn Bruey, 2019-12-16 *Deadly Voyages Migrant Journeys across the Globe* explores the burdens and impact of perilous migration while considering which laws policies practices and venues might establish empathy and protection for migrants This interdisciplinary volume envisions and calls for a transformation in migration policy motivated by the common goal of drastically reducing the peril migrants face when compelled to make their treacherous journeys All contributors to this volume agree on the inadequacy of current approaches and the dire need for change in global migration law and policy Therefore the book seeks to inform educate persuade and facilitate newer or less heard perspectives toward wider participation and influence within the forced migration policy debate Guided by the famous advice of Karl Marx that the point should be changing the world rather than merely analyzing or interpreting it the contributors suggest practical measures to fix the current gap in responses to migrant peril along with strategies for diagnosing countering and promoting human dignity and social justice with the aim of preventing future deaths and injuries in migrant journeys across the globe

The Savage Shore Graham Seal, 2016-04-26 For centuries before the arrival in Australia of Captain Cook and the so called First Fleet in 1788 intrepid seafaring explorers had been searching with varied results for the fabled Great Southland In this enthralling history of early discovery Graham Seal offers breathtaking tales of shipwrecks perilous landings and Aboriginal encounters with the more than three hundred Europeans who washed up on these distant shores long before the land was claimed by Cook for England The author relates dramatic previously untold legends of survival gleaned from the centuries of Dutch Spanish Portuguese French and Indonesian voyages to Australia and debunks commonly held misconceptions about the earliest European settlements ships of the Dutch East Indies Company were already active in the region by the early

seventeenth century and the Dutch rather than the English were probably the first European settlers on the continent
