Deconstructive Criticism An Advanced Introduction:

Deconstructive Criticism Vincent B. Leitch, 1983 The ideal prelude to the study of deconstructive theory for the as yet uninitiated reader Leitch uses in depth analyses surveys of historical background and helpful overviews to address the questions posed by the major figures Saussure Lacan Levi Strauss Heidegger Derrida Barthes Foucault then penetrates and displays the subtle intricacies of their answers *Troubled Histories, Troubled Fictions*, 2022-05-20 Twentieth century Irish fiction powerfully reflects the intensely political nature of the Irish experience for the last hundred years and earlier The essays in *Troubled Histories Troubled Fictions Twentieth Century Anglo Irish Prose* focus upon the various ways in which the work of authors otherwise as diverse as James Joyce James Stephens Elizabeth Bowen Molly Keane Eimar O Duffy Jennifer Johnston William Trevor Julia O Faolain and a number of recent women writers synchronizes with items that are or were high on the agenda of Irish politics Discussion ranges from the political and ideological use to which Joyce puts etymology sex and early Irish history the symbolical importance of the Big House and the politics of sexuality in the immediate post independence period to representations of the recent Troubles *Schiller to Derrida* Juliet Sychrava, 1989-06-30 This is a historical critique of literary theory from the eighteenth to the twentieth centuries *Critical Theory Today* Lois Tyson, 2012-09-10 *Critical Theory Today* is the essential introduction to contemporary critical theory It provides clear simple explanations and concrete examples of complex concepts making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness This new edition provides in depth coverage of the most common approaches to literary analysis today feminism psychoanalysis Marxism reader response theory new criticism structuralism and semiotics deconstruction new historicism cultural criticism lesbian gay queer theory African American criticism and postcolonial criticism The chapters provide an extended explanation of each theory using examples from everyday life popular culture and literary texts a list of specific questions critics who use that theory ask about literary texts an interpretation of F Scott Fitzgerald s *The Great Gatsby* through the lens of each theory a list of questions for further practice to guide readers in applying each theory to different literary works and a bibliography of primary and secondary works for further reading **A Practical Introduction to Literary Theory and Criticism** M. Keith Booker, 1996 A uniquely accessible guide to a difficult subject *A Practical Introduction to Literary Theory and Criticism* introduces students to the major trends in contemporary literary theory Offering the breadth of information of a handbook and the examples of an anthology it provides an invaluable alternative to the standard collections and shows students how literary theory really unfolds *The Yale Critics* Jonathan Arac, Wlad Godzich, Wallace Martin, 1983 *The Yale Critics* was first published in 1983 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions A heated debate has been raging in North America in recent years over the form and function of literature At the center of the fray is a group of critics teaching at Yale University

Harold Bloom Geoffrey Hartman Paul de Man and J Hillis Miller whose work can be described in relation to the deconstructive philosophy practiced by French philosopher Jacques Derrida For over a decade the Yale Critics have aroused controversy most often they are considered as a group to be applauded or attacked rather than as individuals whose ideas merit critical scrutiny Here a new generation of scholars attempts for the first time a serious broad assessment of the Yale group These essays appraise the Yale Critics by exploring their roots their individual careers and the issues they introduce Wallace Martin s introduction offers a brilliant compact account of the Yale Critics and of their relation to deconstruction and the deconstruction to two characteristically Anglo American enterprises Paul Bove explores the new criticism and Wlad Godzich the reception of Derrida in America Next come essays giving individual attention to each of the critics Michael Sprinker on Hartman Donald Pease on Miller Stanley Corngold on de Man and Daniel O Hara on Bloom Two essays then illuminate deconstruction in America through a return to modern continental philosophy Donald Marshall on Maurice Blanchot and Rodolphe Gasche on Martin Heidegger Finally Jonathan Arac s afterword brings the volume together and projects a future beyond the Yale Critics Throughout the contributors aim to provide a balanced view of a subject that has most often been treated polemically While useful as an introduction *The Yale Critics* also engages in a serious critical reflection on the uses of the humanities in American today
