In the Beginning: Hijacking of the Religion of God Sami M. El-Soudani,2009-06-09 Preface It was shortly after I had graduated from the University of Cambridge in 1980 with a PhD Degree specializing in fracture mechanics and failure analysis of materials and structures that I discovered the dire need for this book This undertaking began to take shape in the early 1980s with the Middle East aflame devastated by what some viewed as a holy war and with millennialists prophesying the end of days by the year 2000 C E After publishing and co authoring 87 scientific and industrial reports and technical papers many of which were in national and international magazines on the subject of failure analysis of metals and fracture mechanics of aircraft structures I came to realize that consequences of failures of the human spirit are far more devastating than failures of metals and aircraft structures But now at the outset of the 21st century the world is still experiencing turmoil and devastation by wars spreading like wildfire with Jews Christians and Moslems at each other s throats in seemingly never ending battles and ugly strife Some call it war on terror others speak of wars of clashing cultures crusades jihad etc etc etc One cant help but wonder how this saga of 99% misery and 1% heroism will ever come to an end Only the gullible would attempt to explain the ongoing world conflict among People of the Book Jews Christians and Moslems based on the course of events during the past few years or even the past few decades This is where this book comes in with a rigorous rationalized and hopefully convincing critical assessment of a never before explored most innate aspect of the human nature and that is its obsession with hijacking of the religion of God For better understanding of the root cause of the

ongoing conflict among People of the Book who are supposed to be worshipping the same God we need to take a step back take a deep breath and reflect rationally while ignoring all rhetoric and emotional bias in researching the past three thousand years of religious history And this is exactly what I did in writing this three volume book More specifically this book is addressing the religion of God to whom every human being from among the so called People of the Book today turns in prayer Whether soldiers or civilians when they are caught in the midst of the ongoing grisly and devastating wars some would pray to Yahweh others call upon Jesus Christ while Moslem brethren whisper the name of Allah upon taking their last breath Who is that God And why is He so shrouded with mystery Is He truly One and the Same God for all these people Or are we suffering from some self delusions and possibly hallucinations that may be the senseless products of our ancient religious fabrications and mythmaking Going back in time three thousand years brings us to one very special night when God was said to have come down in person onto Mount Sinai to have a close encounter with human beings through direct speech This three volume book examines the course of religious events from that magic and apocalyptic moment onwards till this day It took me twenty years of research to show that men who practiced hijacking long before they had wings have been quite active over the past three thousand years engaging in the lucrative business of hijacking the religion of God All three religious persuasions Judaism Christianity and Islam suffered the dire consequences of miserably failing to heed the words of our Merciful and Patient God No irony intended here in calling it a business and indeed a lucrative one because it brings the hijackers power enormous wealth and often glory all of which in the sight of God translate respectively into arrogance greed and most certainly infamy In developing the extensive critical review of religion presented herein detailing the respective histories of the selected three *Understanding Islam* ,2000 An amalgamation of three books Basic Principles of Islam Understanding Islam and the Muslims and The Status of Women in Islam this compact user friendly volume offers answers to frequently asked questions about Muslims and their creed Ranging from the general to the specific topics addressed include the origin of Islam the status of women the principles of fasting and prohibition and the authenticity of the Qur an **Islam 101** Arshad Khan,2003-01-28 Islam 101 Principles and Practice is a primer on Islam that addresses the information needs of non Muslims interested in learning about the fastest growing religion in the world quickly and without being initially encumbered by details Islam 101 will also benefit young Muslims especially those living in Western societies who want to learn the basics of Islam Islam 101 reviews the fundamental principles beliefs and practical aspects of Islam It covers diverse topics such as morals good and bad deeds personal characteristics rights and obligations women s rights Islamic law sectarian differences relations with other religions as well as day to day issues It also indicates how some Muslims through their practice have deviated from Islam s true purpose and meaning Islam 101 is a useful tool for disseminating information about Islam and Muslims It will help overturn the stereotyping of Muslims that has developed over the years from the actions of adherents who failed to follow true Islamic teachings *The Islamic Review* ,1915 **The Minaret** ,1974 **The Turks**

in the Early Islamic World C. Edmund Bosworth, 2017-05-15 This volume brings together a set of key articles along with a new introduction to contextualize them on the role of Turkish peoples in the Western Asiatic world up to the 11th century. Such topics as the geographical and environmental original milieu of these peoples in the forest zone and steppelands of Inner Asia, the formation and breakup of tribal confederations within the steppes and the evolution of tribal structures are examined as the background for the appearance of Turks within the Islamic caliphate from the 9th century onwards. These came first as military slaves then as movements of peoples such as the tribal migrations of the Oghuz leading to the establishment of the Seljuq sultanate whilst from within Islamic society individual Turkish commanders were able at the same time to build up their own military empires such as that of the Ghaznavids. In this way was put in place a Turkish dominance of the northern tier of the Middle East with attendant changes in demography and land utilisation which was to last for centuries.

Basic Beliefs of Islam Sayyid Qasim Mujtaba Moosavi Kamoopuri, 2017-05-20 This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world and it welcomes your involvement and support. Its objectives are numerous yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks. Muslims and non-Muslims Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought.

Introducing Islam from Within Mona Abul Fadl, 1991 This work condenses profiles and synthesises the essentials of Islam as a religion and a way of life. It was originally written as a supplement to basic classroom reading requirements to cover questions that could not be answered readily.
