Basic Tests For Pharmaceutical Substances:

Basic Tests for Drugs World Health Organization, 1998 This book provides a step by step guide to simple methods for verifying the identity of commonly used pharmaceutical substances and dosage forms The basic tests described can also be used to detect mislabeled substandard or counterfeit products when the labeling or physical attributes give rise to doubt Intended for use in developing countries where resources and specialized skills may be scarce all tests rely on a limited range of easily available reagents and equipment and need not be performed in a fully equipped laboratory or by persons with specialized training in pharmacy or chemistry The book describes tests for 23 pharmaceutical substances and 58 pharmaceutical dosage forms most of which are included in the WHO Model List of Essential Drugs Basic tests for confirming the identity of four commonly used medicinal plant materials are also included As stressed in the text these tests which merely confirm identity are intended for use as primary screening tools and may need to be followed in cases of adverse test results by a full pharmacopoeial analysis The book opens with a brief description of the importance of basic tests as one of the many steps needed to ensure a supply of safe and effective drugs Chapter two describes several collections of more sophisticated tests including volumetric or spectrophotometric analysis and thin layer chromatography that can be useful in the primary screening of imported pharmaceutical substances and dosage forms Information on how to obtain and use these guides to tests which have not been published by WHO is also provided Against this background the main part of the book sets out test procedures for verifying the identity of selected pharmaceutical substances pharmaceutical dosage forms and medicinal plant materials The book concludes with a cumulative index of test procedures described here and in the related WHO publications *Basic Tests for Pharmaceutical Substances and Basic Tests for Pharmaceutical Dosage Forms* *Basic Tests For Pharmaceutical Substances, 1/Ed.* ,2007 *Basic Tests for Pharmaceutical Substances* World Health Organization, 1986
