## **Being And Dialectic:**

**Being and Dialectic** Brian Jonathan Wolk,2016-10-07 Existential dialectical materialism is the philosophic synthesis of Marxism dialectical materialism and existentialism providing the delineation of a new philosophic paradigm based on a more adequate view of humanity and the nature of human reality Being and Dialectic sets forth the core principles of the philosophy Among other insights the new and intriguing law of politicoeconomic entropy is shown to naturally arise from the philosophys deductive structure Existential dialectical materialism is at once both a philosophy of revolution and conservatism being the rational result of the necessary dialectic development of political philosophical theory and thought

**Being and Dialectic** William Desmond,Joseph Grange,2000-07-20 Philosophy without metaphysics is unthinkable yet there has been much discussion of this the end of metaphysics or post metaphysical thinking This book takes issue with this proclamation of the end of metaphysics It offers diverse arguments that metaphysics cannot be put behind us and has its own continuing contribution to the life of human culture The contributors are a diverse group of thinkers whose work obviates the divide between analytic and continental philosophy Here they explore the relations to metaphysics and dialectic with regard to sources to major themes to individual thinkers and to dialectic seen in cross cultural perspective Contributors to this book include George Allan Vincent Colapietro William Desmond David L Hall Kevin Kennedy Brian Martine Robert Cummings Neville Carl Page Giacomo Rinaldi Stephen David Ross and David Weissman

**Beyond Hegel and Dialectic** William Desmond,1992 This book is a defense of speculative philosophy in the wake of Hegel In a number of wide ranging meditative essays Desmond deals with the criticism of speculative thought in post Hegelian thinking He covers the interpretation of Hegelian speculation in terms of the metataxological notion of being and the concept of philosophy that Desmond has developed in two previous works Philosophy and Its Others and Desire Dialectic and Otherness Though Hegel is Desmond s primary interlocuter there are references to Aristophanes Socrates Plato Augustine Aquinas Descartes Kant Marx Kierkegaard Nietzsche Heidegger Levinas and Derrida Desmond is concerned with the limits of philosophy The themes of the essays include speculation and historicism speculation and cult speculation and representation evil and dialectic logos and the comedy of failure

*The Intimate Strangeness of Being* William Desmond,2012-04-09 This book explores the contested place of metaphysics since Kant and Hegel arguing for a renewed metaphysical thinking about the intimate strangeness of being

*The Principle and the Method of the Hegelian Dialectic* Evander Bradley MacGilvary,1897

**Being and the Between** William Desmond,1995-01-01 This is the culmination of a systematic metaphysics written by a world class philosopher demonstrating the need for a renewal of metaphysics

Hegel's Dialectic A. Sarlemijn,2012-12-06 This book was written in 1968 and defended as a doctoral dissertation before the Philosophical Faculty at the University of Fribourg Switzerland in 1969 It treats of the systematic views of Hegel which led him to give to the principle of non contradiction the principle of double negation and the principle of excluded middle meanings which are difficult to understand The reader will

look in vain for the philosophical position of the author A few words about the intentions which motivated the author to study and clarify Hegel's thought are therefore not out of place In the early sixties when occupying myself with the history of Marxist philosophy I discovered that the representatives of the logical positivist tradition were not alone in employing a principle of demarcation that those of the dialectical Marxist tradition were also using such a principle self movement as a foundation of a scientific philosophy and as a means to delimit unscientific ideas I aimed at a clear conception of this principle in order to be able to judge whether and to what extent it accords with the foundations of the analytical method In this endeavor I encountered two problems 1 What is to be understood by analytical method cannot be ascertained unequivocally

**Being and Creation in the Theology of John Scottus Eriugena** Sergei N. Sushkov, 2017-08-09 Despite his prominent role in the formation of Christian thought John Scottus Eriugena still remains an enigmatic figure whose background and potential arouse a great deal of scholarly interest This is true especially today when faith seeks to regenerate his honesty and profundity encourage us in our search for the authentic teaching of Christ As a theologian who strongly believes in human dignity as equal to that of the imago dei Eriugena helps us meet Christ again and follow him towards a new horizon of being What makes Eriugena's theology unique is his innovative approach to theological thinking which is to be properly understood as argued in this book in terms of the paradigmatic shift from metaphysics to dialectic The way we think while trying to adopt and follow the truth of revelation so as to get freed from the world of finite things cannot actually dispense with a dialectical treatment of contradiction And Eriugena is explicit about this which allows him to win a reputation as the Hegel of the ninth century and to make us look at our faith anew in coherence with such pivotal ideas as the divine unity right reason and return to the reality of creation

**The Future of Post-Human Accounting** Peter Baofu, 2014-06-03 This book reexamines opposing views on accounting offering a new theory the double sided theory of accounting It explores the dialectic relationship between addition and subtraction considering perspectives from mind nature society and culture with implications for the human future and post human fate

**New Being** Kenan B. Osborne, 2013-11-21 The following study on Tillich's theology is based on a doctoral dissertation presented to the Ludwig Maximilian University at Munich in December 1967 Tillich's theology however is not a simple structure to analyze since it is so systematically interrelated Certainly every major area of his theological system involves all other major areas and even the minor areas have complex ramifications to the total system itself The following pages therefore can only be construed as one among many viewpoints of his system Tillich's theological structure might be compared to a painting or some other work of art one must view it now from this direction now from that in order to appreciate the total effect Certain points should however be mentioned here First of all a key notion in this system is essentialization This concept rounds off and completes Tillich's entire work Unfortunately Tillich himself did not write extensively on this topic nor did he actually correlate it to the beginning and middle of his system although it expresses the final telos of his entire theological work I have drawn out of

the Systematic Theology as much as possible on the subject of essentialization and have tried to analyze it in light of other key concepts in his system *The Ethics of Aristotle* Aristotle, Alexander Grant, 1885 **A Theory of Time** John Eloff Boodin, 1899 [Desire and the Ascetic Ideal](#) Edward Upton, 2023-09-26 The Hindu words Shantih shantih shantih provide the closing of *The Waste Land* perhaps the most famous poem of the twentieth century This is just one example among many of T S Eliot's immersion in Sanskrit and Indian philosophy and of how this fascination strongly influenced his work Centering on Eliot's study of sources from ancient India this new book offers a rereading of the poet's work analyzing his unpublished graduate school notebooks on Indian philosophy and exploring Eliot's connection with Buddhist thought Eliot was crucially influenced by his early engagement with Indian texts and when analyzed through this lens his poems reveal a criticism of the attachments of human desire and the suggestion that asceticism might hold out the possibility that desire can be cultivated toward a metaphysical absolute Full of such insights Upton's book represents an important intervention in modernist studies

**The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1913 An international journal of general philosophy **The Works of Aristotle: Metaphysica, by W.D. Ross. 1928** Aristotle, 1928 [Plato and Heidegger](#) Francisco J. Gonzalez, 2009-11-09 In a critique of Heidegger that respects his path of thinking Francisco Gonzalez looks at the ways in which Heidegger engaged with Plato's thought over the course of his career and concludes that owing to intrinsic requirements of Heidegger's own philosophy he missed an opportunity to conduct a real dialogue with Plato that would have been philosophically fruitful for us all Examining in detail early texts of Heidegger's reading of Plato that have only recently come to light Gonzalez in parts 1 and 2 shows there to be certain affinities between Heidegger's and Plato's thought that were obscured in his 1942 essay *Plato's Doctrine of Truth* on which scholars have exclusively relied in interpreting what Heidegger had to say about Plato This more nuanced reading in turn helps Gonzalez provide in part 3 an account of Heidegger's later writings that highlights the ways in which Heidegger in repudiating the kind of metaphysics he associated with Plato took a direction away from dialectic and dialogue that left him unable to pursue those affinities that could have enriched Heidegger's own philosophy as well as Plato's A genuine dialogue with Plato Gonzalez argues would have forced Heidegger to go in certain directions where he did not want to go and could not go without his own thinking undergoing a radical transformation **Capitalism and the Dialectic** John Bell, 2009-10-15 An introduction and exposition to the Uno approach of Marx's work *The Works of Aristotle: Metaphysica, by W. D. Ross* Aristotle, 1908 [The English Dialect Dictionary, Being the Complete Vocabulary of All Dialect Words Still in Use, Or Known to Have Been in Use During the Last Two Hundred Years: D-G](#) Joseph Wright, 1900 *Studies in Hegelian Cosmology* John McTaggart Ellis McTaggart, 1918
