Creating the New Generation of Genius Matthias Schübel,2013-06 The secret to the creative genius is revealed Being a genius is the realized possibility of living fully by one's inner resources from the heart and bringing these out in a tangible form through the head It is the perfect combination between spirituality and science When both dimensions and qualities come together as one a genius is produced It has always been one of our greatest desires to reach the state of genius It is the greatest dream of mankind and the intense longing for it has followed us throughout history The great geniuses we know seem so far above us that they appear almost impossible to reach We look upon such people as divinely gifted and endowed with what appear to be supernatural powers How is it possible to reach this state upon which our greatest achievements have been built The Secret to the Creative Genius Revealed answers this question as it reveals the true secret to the creative genius It tells the principle The Genius Factor by which all great geniuses have worked Through this book we can all tap into our genius potential The whole process falls into the realm of outer science meeting inner science In other words once we live by our true nature and original intent of being whole and complete integrating material and spiritual life we are genius Born in Bavaria Matthias Schubel has recently returned to Germany after living in Asia for the past seventeen years He considers himself a New Age writer focusing on bridging Western science with Eastern philosophy For more information visit www.matthiasschuebel.com or email info@matthiasschuebel.com Publisher's website <http://sbpra.com> MatthiasSchuebe

Fire in

the Crucible John Briggs,2002-01-01 The co author of Looking Glass Universe probes the nature of creativity and reveals the strategies and tactics of some of our greatest creative minds What makes geniuses different from the rest of us What is the difference between a prodigy and a genius Are geniuses born or made What is creative vision and where does it come from What are the secrets of talent And why do great creators seem to have so many oppositions in their personalities In this mind expanding investigation of creativity John Briggs reveals that there is no special trait of genius Geniuses are not necessarily smarter or more talented than other people but they give their attention to subtle nuances contradictory feelings and perceptions that others experience and ignore By focusing on sensory nuances geniuses create themselves Fire in the Crucible offers a compelling exploration of the roots of creativity and genius Drawing on the lives and work of extraordinary scientists artists writers composers and inventors Briggs shows how creative individuals exploit doubt and uncertainty and the mental strategies and tactics they employ when they work In asking about creativity he writes we are really asking about what is best what is deepest in life Fire in the Crucible draws the reader into an eye opening journey through the inner workings of some of the greatest creative minds of all time and allows us to understand more deeply the nature of creativity in our own lives and work Praise for Fire in the Crucible His refreshingly open ended approach brings us closer to the elusive nature of genius Publishers Weekly An exuberant voyage through the brains and minds of creative individuals chock full of intriguing scientific discoveries and puzzling paradoxes Howard Gardner Harvard University author of Multiple Intelligences
