Criminal Sentences:

Suspended Prison Sentences Jakub Drápal, Krzysztof Krajewski, Milena Tripković, 2026-02-19 This book uncovers the controversies around the suspended prison sentence its main aims and features and the role that it occupies within the wider criminal justice context Suspended prison sentences were introduced in Central and Eastern European CEE states as alternatives to short prison sentences although they were initially generally conceived of as exceptional penal tools over time they became the most imposed and dominant penal sanctions and in that sense a defining feature of criminal justice systems in the region The book provides a rich source of information about the development and features of suspended sentences in eight CEE countries a topic that although of great importance due to their frequency has received only scant academic attention Employing a legal socio legal and criminological approach it achieves this goal through individual chapters on eight countries Czechia Estonia Hungary Poland Romania the Russian Federation Serbia and Slovenia and also through three general chapters which outline the main specificity of the region as a whole but also present nuances between different countries The book will be of interest to a wide variety of academic researchers who study crime punishment and the penal system and especially to those interested in sentencing Given the huge discrepancy in the frequency of use of this sanction in CEE countries and the frequency of use of parole in contemporary practice the work provides unique insights into the potential and desirability of its wider use particularly due to the minimal supervision that it requires in examined countries The book therefore seeks to critically inform current thinking on the value and appropriateness of particular forms of sanctions in responding to crime Journal of the American Institute of Criminal Law and Criminology ,1926 **People v.
